

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, D.C. 20549

FORM 10-Q

- QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2007

- TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission File Number: 001-32171

Opteum Inc.

(Exact name of registrant as specified in its charter)

**Maryland
(State or other jurisdiction of
incorporation or organization)**

**72-1571637
(I.R.S. Employer
Identification No.)**

**3305 Flamingo Drive, Vero Beach, Florida 32963
(Address of principal executive offices) (Zip Code)**

**(772) 231-1400
(Registrant's telephone number, including area code)**

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of "accelerated filer and large accelerated filer" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

As of August 13, 2007, the number of shares outstanding of the registrant's Class A Common Stock, \$0.001 par value, was 24,665,993; the number of shares outstanding of the registrant's Class B Common Stock, \$0.001 par value, was 319,388; and the number of shares outstanding of the registrant's Class C Common Stock, \$0.001 par value, was 319,388.

OPTEUM INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)
June 30, 2007

NOTE 1. ORGANIZATION AND SIGNIFICANT ACCOUNTING POLICIES

Organization and Business Description

Opteum Inc., a Maryland corporation ("Opteum"), was originally formed in September 2003 as Bimini Mortgage Management, Inc. ("Bimini") for the purpose of creating and managing a leveraged investment portfolio consisting of residential mortgage backed securities ("MBS"). Opteum's shares of Class A Common Stock are listed on the New York Stock Exchange and trade under the ticker symbol "OPX." Opteum's website is located at <http://www.opteum.com>.

On November 3, 2005, Opteum, then known as Bimini, acquired Opteum Financial Services, LLC. This entity, which was previously referred to as "OFS," was renamed Orchid Island TRS, LLC effective July 3, 2007. Hereinafter, any historical mention, discussion or references to Opteum Financial Services, LLC or to OFS (such as in previously filed documents or Exhibits) now means Orchid Island TRS, LLC or "OITRS." Upon closing of the transaction, OITRS became a wholly-owned taxable REIT subsidiary of Bimini. Under the terms of the transaction, Bimini issued 3.7 million shares of Class A Common Stock and 1.2 million shares of Class A Redeemable Preferred Stock to the former members of OITRS.

On February 10, 2006, Bimini changed its name to Opteum Inc. At Opteum's 2006 Annual Meeting of Stockholders, the shares of Class A Redeemable Preferred Stock issued to the former members of OITRS were converted into shares of Opteum's Class A Common Stock on a one-for-one basis following the approval of such conversion by Opteum's stockholders.

On December 21, 2006, Opteum sold to Citigroup Global Markets Realty Corp. ("Citigroup Realty") a Class B non-voting limited liability company membership interest in OITRS, representing 7.5% of all of OITRS's outstanding limited liability company membership interests, for \$4.1 million. Immediately following the transaction, Opteum held Class A voting limited liability company membership interests in OITRS representing 92.5% of all of OITRS's outstanding limited liability company membership interests. In connection with the transaction, Opteum also granted Citigroup Realty the option, exercisable on or before December 20, 2007, to acquire additional Class B non-voting limited liability company membership interests in OITRS representing 7.49% of all of OITRS's outstanding limited liability company membership interests.

Opteum has elected to be taxed as a real estate investment trust ("REIT") under the Internal Revenue Code of 1986, as amended (the "Code"). As a REIT, Opteum is generally not subject to federal income tax on its REIT taxable income provided that it distributes to its stockholders at least 90% of its REIT taxable income on an annual basis. OITRS has elected to be treated as a taxable REIT subsidiary and, as such, is subject to federal, state and local income taxation. In addition, the ability of OITRS to deduct interest paid or accrued to Opteum for federal, state and local tax purposes is subject to certain limitations.

As used in this document, discussions related to "Opteum," the parent company, the registrant, and to real estate investment trust ("REIT") qualifying activities or the general management of Opteum's portfolio of mortgage backed securities ("MBS") refer to "Opteum Inc." Further, discussions related to Opteum's taxable REIT subsidiary or non-REIT eligible assets refer to OITRS and its consolidated subsidiaries. This entity, which was previously referred to as "OFS," was renamed Orchid Island TRS, LLC effective July 3, 2007. Hereinafter, any historical mention, discussion or references to Opteum Financial Services, LLC or to OFS (such as in previously filed documents or Exhibits) now means Orchid Island TRS, LLC or "OITRS." Discussions relating to the "Company" refer to the consolidated entity (the combination of Opteum and OITRS). The assets and activities that are not REIT eligible, such as mortgage origination, acquisition and servicing activities, are conducted by OITRS.

On April 18, 2007, the Board of Managers of OITRS, at the recommendation of the Board of Directors of Opteum, approved the closure of OITRS' wholesale and conduit mortgage loan origination channels in the second quarter of 2007. Also, during the second quarter of 2007, approval was also given to sell substantially all of the other operating assets of OITRS. Therefore, OITRS is accounted for as a discontinued operation, all OITRS's assets are considered as held for sale, and OITRS is reported as a discontinued operation for all periods presented following applicable accounting standards. For financial statement presentation purposes, as of the quarter ended June 30, 2007, Opteum is now operating in a single business segment, as a REIT.

Liquidity

The Company has obtained committed funding arrangements that provide specified advance rates and funding levels and are available to finance our MBS portfolio. Should our financing be withdrawn and our committed funding agreements not be sufficient to finance all of our MBS investments, we may be forced to sell such assets, which may result in losses upon such sales. While the financing in place for our retained interests, trading held by OITRS is committed through December 20, 2007, the lender on the financing facility has and may continue to request additional margin be posted in connection with the facility. If we are unable to meet such requests in the future, we may be forced to sell the assets or seek alternative financing. At present, such alternative financing arrangements for the residual interests, trading may not be available or only available at substantially higher cost to OITRS. If cash resources are, at any time, insufficient to satisfy the Company's liquidity requirements, such as when cash flow from operations were materially negative, the Company may be required to pledge additional assets to meet margin calls, liquidate assets, sell additional debt or equity securities or pursue other financing alternatives. Any sale of mortgage-related securities or other assets held for sale at prices lower than the carrying value of such assets would reduce our income. The Company presently believes that its equity and junior subordinated debt capital, combined with the cash flow from operations and the utilization of borrowings, will be sufficient to enable the Company to meet its anticipated liquidity requirements. Continued disruptions in market conditions could, however, adversely affect the Company's liquidity, including the lack of available financing for our MBS assets beyond the capacity of our committed facilities (currently \$0.75 billion), increases in interest rates, increases in prepayment rates substantially above expectations and decreases in value of assets held for sale. Therefore, no assurances can be made regarding the Company's ability to satisfy its liquidity and working capital requirements.

Interim Financial Statements

The accompanying interim financial statements reflect all adjustments, consisting of normal recurring items that, in the opinion of management, are necessary for a fair presentation of the Company's financial position, results of operations, statement of stockholders' equity and cash flows for the periods presented. These interim financial statements have been prepared in accordance with disclosure requirements for interim financial information and accordingly, they may not include all of the information and footnotes required by U.S. generally accepted accounting principles ("GAAP") for annual financial statements. The operating results for the interim period ended June 30, 2007 are not necessarily indicative of results that can be expected for the year ended December 31, 2007. The consolidated balance sheet as of December 31, 2006 was derived from audited financial statements included in our 2006 Annual Report on Form 10-K but does not include all disclosures required by accounting principals generally accepted in the United States. Certain prior year amounts were reclassified to conform to the second quarter of 2007 presentation, including the discontinued operations presentation. The financial statements included as part of this Form 10-Q should be read in conjunction with the financial statements and notes thereto included in the Company's Annual Report on Form 10-K for the year ended December 31, 2006.

Basis of Presentation and Use of Estimates

The accompanying consolidated financial statements are prepared on the accrual basis of accounting in accordance with GAAP. The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates affecting the accompanying financial statements include the fair values of MBS, the prepayment speeds used to calculate amortization and accretion of premiums and discounts on MBS, the recording of certain balances related to the discontinued operation, including the realizability of the deferred tax assets and related valuation allowance, the valuation allowance on mortgage loans held for sale, the amount of the impairment charges recorded on certain assets, the valuation of retained interests, trading and the fair value of mortgage servicing rights.

Consolidation

The accompanying consolidated financial statements include the accounts of Opteum and its majority-owned subsidiary, OITRS, as well the wholly-owned and majority-owned subsidiaries of OITRS. OITRS is reported as a discontinued operation as of June 30, 2007. All inter-company accounts and transactions have been eliminated from the consolidated financial statements.

Opteum owned 100% of OITRS until December 21, 2006, when a Class B non-voting interest representing 7.5% of OITRS's then outstanding limited liability company membership interest was sold to Citigroup Realty. Citigroup Realty's proportionate share in the after-tax results of OITRS's operations, are included in the accompanying statements of operation. During the six months ended June 30, 2007, the proportionate share of OITRS's loss exceeded the net investment attributable to Citigroup Realty. Therefore, the portion of the net loss of OITRS that is attributable to Citigroup Realty's interest that is in excess of their investment is charged against the Company. Citigroup Realty's net investment balance on December 31, 2006 was \$0.8 million. During the quarter ended March 31, 2007, Citigroup Realty's interest in the net loss of OITRS was limited to their \$0.8 million net investment, and the remainder was charged against the Company. The entire loss for the quarter ended June 30, 2007 is charged against the Company. The losses absorbed by the Company which are in excess of Citigroup Realty's investment totaled approximately \$11.1 million and \$6.0 million for the six and three months ended June 30, 2007, respectively. In future periods, the Company will be credited first for these absorbed losses before Citigroup Realty's investment is reinstated.

As further described in Note 6, Opteum has a common share investment in two trusts used in connection with the issuance of Opteum's junior subordinated notes. Pursuant to the accounting guidance provided in Financial Accounting Standards Board ("FASB") Interpretation ("FIN") No. 46, *Consolidation of Variable Interest Entities*, Opteum's common share investments in the trusts are not consolidated in the financial statements of Opteum, and accordingly, these investments are accounted for on the equity method.

Cash and Cash Equivalents

Cash and cash equivalents include cash on hand and highly liquid investments with original maturities of three months or less. The carrying amount of cash equivalents approximates its fair value as of June 30, 2007 and December 31, 2006.

Valuation of Mortgage Backed Securities

The valuation of the Company's investments in MBS is governed by Statement of Financial Accounting Standards ("SFAS") No. 107, *Disclosures about Fair Value of Financial Instruments*. SFAS No. 107 defines the fair value of a financial instrument as the amount at which the instrument could be exchanged in a current transaction between willing parties. All REIT securities are reflected in the Company's financial statements at their estimated fair value as of June 30, 2007 and December 31, 2006. Estimated fair values for MBS are based on the average of third-party broker quotes received and/or independent pricing sources when available. However, the fair values reported reflect estimates and may not necessarily be indicative of the amounts the Company could realize in a current market exchange.

In accordance with GAAP, the Company classifies its investments in MBS as either trading investments, available-for-sale investments or held-to-maturity investments. Management determines the appropriate classification of the securities at the time they are acquired and evaluates the appropriateness of such classifications at each balance sheet date. Although the Company generally intends to hold its MBS until maturity, it may, from time to time, sell any of its MBS as part of the overall management of the business and/or to meet liquidity needs. The Company classifies all of its securities as available-for-sale.

When the fair value of an available-for-sale security is less than amortized cost, management considers whether there is an other-than-temporary impairment in the value of the security. The decision is based on the credit quality of the issue (agency versus non-agency and for non-agency, the credit performance of the underlying collateral), the security prepayment speeds, the length of time the security has been in an unrealized loss position and the Company's ability and intent to hold securities. As of June 30, 2007, the Company did not hold any non-agency securities in its portfolio. If, in management's judgment, an other-than-temporary impairment exists, the cost basis of the security is written down in the period to fair value and the unrealized loss is recognized in current period earnings. Accordingly, due to liquidity and working capital needs, the Company no longer had the ability to hold such assets until their amortized cost could be fully recovered in the period ended June 30, 2007, the cost basis of all MBS have been written down to fair value and the previously unrealized loss was recognized in current period earnings. The measurement basis for other-than-temporarily impaired MBS is the lower of cost or market (LOCOM) method. An impairment loss is recognized in earnings equal to the difference between the MBS' cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. The LOCOM method recognizes the net decrease in value but not the net appreciation in the value of those securities. The fair value of impaired MBS would then become the new cost basis of the MBS and should not be adjusted for subsequent recoveries in fair value.

Property and Equipment, net

Property and equipment, net, consisting primarily of computer equipment with a depreciable life of 3 years, office furniture with a depreciable life of 12 years, leasehold improvements with a depreciable life of 15 years, land which has no depreciable life and building with a depreciable life of 30 years, is recorded at acquisition cost and depreciated using the straight-line method over the estimated useful lives of the assets.

Opteum's property and equipment as of June 30, 2007 and December 31, 2006, is net of accumulated depreciation of \$0.3 million and \$0.2 million, respectively. Depreciation expense for the six and three months ended June 30, 2007 was \$0.1 million and \$0.06 million, respectively, and was \$0.06 million and \$0.03 million for the six and three months ended June 30, 2006, respectively. All property and equipment for OITRS is included in assets held for sale on the accompanying balance sheets.

Repurchase Agreements

The Company finances the acquisition of its MBS through the use of repurchase agreements. Under these repurchase agreements, the Company sells securities to a repurchase counterparty and agrees to repurchase the same securities in the future for a price that is higher than the original sales price. The difference between the sales price that the Company receives and the repurchase price that the Company pays represents interest paid to the repurchase counterparty. Although structured as a sale and repurchase obligation, a repurchase agreement operates as a financing under which the Company pledges its securities as collateral to secure a loan which is equal in value to a specified percentage of the estimated fair value of the pledged collateral. The Company retains beneficial ownership of the pledged collateral. At the maturity of a repurchase agreement, the Company is required to repurchase the underlying MBS and concurrently receives back its pledged collateral from the repurchase counterparty or, with the consent of the repurchase counterparty, the Company may renew such agreement at the then prevailing rate. These repurchase agreements may require the Company to pledge additional assets to the repurchase counterparty in the event the estimated fair value of the existing pledged collateral declines. As of June 30, 2007 and December 31, 2006, the Company did not have any margin calls on its repurchase agreements that it was not able to satisfy with either cash or additional pledged collateral.

Original terms to maturity of the Company's repurchase agreements generally, but not always, range from one month to twelve months; however, the Company is not precluded from entering into repurchase agreements with shorter or longer maturities. Repurchase agreement transactions are reflected in the financial statements at their cost, which approximates their fair value because of the short-term nature of these instruments. Should a counterparty decide not to renew a repurchase agreement at maturity, the Company must either refinance elsewhere or be in a position to satisfy this obligation. If, during the term of a repurchase agreement, a counterparty files for bankruptcy, the Company could experience difficulty recovering its pledged assets and may have an unsecured claim against the counterparty's assets for the difference between the amount received by the Company and the estimated fair value of the collateral pledged to such counterparty.

Interest Income Recognition on MBS

MBS are recorded at cost on the date the MBS are purchased or sold, which is generally the trade date. Realized gains or losses from MBS transactions are determined based on the specific identified cost of the MBS. Interest income is accrued based on the outstanding principal amount of the MBS and their stated contractual terms. Premiums and discounts associated with the purchase of the MBS are amortized or accreted into interest income over the estimated lives of the MBS adjusted for estimated prepayments using the effective interest method. Adjustments are made using the retrospective method to the effective interest computation each reporting period. The adjustment is based on the actual prepayment experiences to date and the present expectation of future prepayments of the underlying mortgages and/or the current value of the indices underlying adjustable rate mortgage securities versus index values in effect at the time of purchase or the last adjustment period.

For the REIT activities, approximately 91.0% of the interest income was derived from MBS issued by U.S. Government agencies.

Comprehensive Income (Loss)

In accordance with SFAS No. 130, *Reporting Comprehensive Income*, the Company is required to separately report its comprehensive income (loss) each reporting period. Other comprehensive income refers to revenue, expenses, gains and losses that, under GAAP, are included in comprehensive income but are excluded from net income, as these amounts are recorded directly as an adjustment to stockholders' equity. Other comprehensive income (loss) arises from unrealized gains or losses generated from changes in market values of securities classified as available-for-sale, provided however that such securities are not other than temporarily impaired.

Comprehensive (loss) is as follows:

(in thousands)

	(Unaudited)			
	Six Months Ended		Three Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
Net (loss)	\$ (240,537)	\$ (9,367)	\$ (162,467)	\$ (1,395)
Reclassify net realized loss on MBS	19,388	-	18,568	-
Reclassify other-than-temporary loss on MBS	55,250	-	55,250	-
Unrealized gain (loss) on available-for-sale securities, net	2,135	(33,897)	(1,043)	(22,472)
Comprehensive (loss)	\$ (163,764)	\$ (43,264)	\$ (89,692)	\$ (23,867)

Stock-Based Compensation

The Company adopted SFAS No. 123(R), *Share-Based Payment*, on January 1, 2006, and this adoption did not have an impact on the Company, as the Company had previously accounted for stock-based compensation using the fair value based method prescribed by SFAS No. 123, *Accounting for Stock-Based Compensation*. For stock and stock-based awards issued to employees, a compensation charge is recorded against earnings based on the fair value of

the award. For transactions with non-employees in which services are performed in exchange for the Company's common stock or other equity instruments, the transactions are recorded on the basis of the fair value of the service received or the fair value of the equity instruments issued, whichever is more readily measurable at the date of issuance. Opteum's stock-based compensation transactions resulted in an aggregate of \$1.5 million and \$0.7 million of compensation expense for the six and three months ended June 30, 2007, respectively, and \$1.6 million and \$0.8 million of compensation expense for the six and three months ended June 30, 2006, respectively.

Earnings Per Share

The Company follows the provisions of SFAS No. 128, *Earnings per Share*, and the guidance provided in the FASB's Emerging Issues Task Force ("EITF") Issue No. 03-6, *Participating Securities and the Two-Class Method under FASB Statement No. 128, Earnings Per Share*, which requires companies with complex capital structures, common stock equivalents or two (or more) classes of securities that participate in the declared dividends to present both basic and diluted earnings per share ("EPS") on the face of the consolidated statement of operations. Basic EPS is calculated as income available to common stockholders divided by the weighted average number of common shares outstanding during the period. Diluted EPS is calculated using the "if converted" method for common stock equivalents. However, the common stock equivalents are not included in computing diluted EPS if the result is anti-dilutive.

Outstanding shares of Class B Common Stock, participating and convertible into Class A Common Stock, are entitled to receive dividends in an amount equal to the dividends declared on each share of Class A Common Stock if, as and when authorized and declared by the Board of Directors. Following the provisions of EITF 03-6, shares of the Class B Common Stock are included in the computation of basic EPS using the two-class method and, consequently, are presented separately from Class A Common Stock.

The shares of Class C Common Stock are not included in the basic EPS computation as these shares do not have participation rights. The outstanding shares of Class C Common Stock, totaling 319,388 shares, are not included in the computation of diluted EPS for the Class A Common Stock as the conditions for conversion into shares of Class A Common Stock were not met.

Income Taxes

Opteum has elected to be taxed as a REIT under the Code. As further described in Note 12, Discontinued Operations, OITRS is a taxpaying entity for income tax purposes and is taxed separately from Opteum. Opteum will generally not be subject to federal income tax on its REIT taxable income to the extent that Opteum distributes its REIT taxable income to its stockholders and satisfies the ongoing REIT requirements, including meeting certain asset, income and stock ownership tests. A REIT must generally distribute at least 90% of its REIT taxable income to its stockholders, of which 85% generally must be distributed within the taxable year, in order to avoid the imposition of an excise tax. The remaining balance may be distributed up to the end of the following taxable year, provided the REIT elects to treat such amount as a prior year distribution and meets certain other requirements.

Recent Accounting Pronouncements

On February 15, 2007, the FASB issued statement No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities — Including an Amendment of FASB Statement No. 115* "SFAS 159". This standard permits an entity to measure financial instruments and certain other items at estimated fair value. Most of the provisions of SFAS No. 159 are elective; however, the amendment to SFAS No. 115, Accounting for Certain Investments in Debt and Equity Securities, applies to all entities that own trading and available-for-sale securities. The fair value option created by SFAS 159 permits an entity to measure eligible items at fair value as of specified election dates. The fair value option is generally applied instrument by instrument, is irrevocable unless a new election date occurs, and must be applied to the entire instrument and not to only a portion of the instrument. SFAS 159 is effective as of the beginning of the first fiscal year that begins after November 15, 2007. The Company is currently evaluating the impact of SFAS 159, if any, on the consolidated financial statements.

In September 2006, the FASB issued SFAS No. 157, *Fair Value Measurements*, to eliminate the diversity in practice that exists due to the different definitions of fair value that are dispersed among the many accounting pronouncements that require fair value measurements and the limited guidance for applying those definitions. SFAS 157 is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is currently evaluating the impact, if any, of adopting SFAS 157 on the financial statements.

In June 2006, the FASB issued FASB Interpretation No. 48, *Accounting for Uncertainty in Income Taxes — an interpretation of FASB Statement No. 109* ("FIN 48"), which clarifies the accounting for uncertainty in tax positions. This Interpretation requires that the Company recognize in its financial statements, the impact of a tax position, if that position is more likely than not of being sustained on audit, based on the technical merits of the position. The provisions of FIN 48 are effective as of the beginning of the 2007 fiscal year, with the cumulative effect, if any, of the change in accounting principle recorded as an adjustment to opening retained earnings. The Company adopted FIN 48 on January 1, 2007, and such adoption did not have a material impact on the Company's consolidated financial position and results of operations.

In February 2006, the FASB issued SFAS No. 155, *Accounting for Certain Hybrid Financial Instruments — an amendment of FASB Statements No. 133 and 140*. SFAS 155 (i) permits an entity to measure at fair value any financial instrument that contains an embedded derivative that otherwise would require bifurcation; (ii) establishes a requirement to evaluate interests in securitized financial assets to identify interests that are freestanding derivatives or that are hybrid financial instruments that contain an embedded derivative requiring bifurcation; and (iii) contains other provisions that are not germane to the Company. SFAS 155 is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year beginning after September 15, 2006. A scope exception under SFAS 155 where by securitized interests that only contain an embedded derivative that is tied to the prepayment risk of the underlying prepayable financial asset, and for which the investor does not control the right to accelerate the settlement was adopted by the FASB. The MBS securities owned in the REIT portfolio fall under this scope exception. However, in the future, the Company may own securities that may not fall under the exception or the FASB may repeal the exception, in which case the Company would be subject to the provisions of SFAS 155. Should securities owned by the Company fall under the provisions of SFAS 155 in the future, the Company's results of operations may exhibit volatility as certain of its future investments may be marked to market through the income statement.

NOTE 2. ACQUISITION OF OITRS

On November 3, 2005, Opteum acquired 100% of the equity interests of OITRS through a merger with a wholly-owned subsidiary of Opteum. The results of operations of OITRS have been included in the Company's consolidated financial statements since November 3, 2005. On December 21, 2006, Opteum sold to Citigroup Realty a Class B non-voting limited liability company membership interest in OITRS, representing 7.5% of all of OITRS's outstanding limited liability company membership interests, for \$4.1 million. As of June 30, 2007, OITRS is accounted for as a discontinued operation (See Note 12).

NOTE 3. MORTGAGE BACKED SECURITIES

As of June 30, 2007 and December 31, 2006, all of Opteum's MBS were classified as available-for-sale. The measurement basis for other-than-temporarily impaired MBS is the LOCOM method. An impairment loss is recognized in earnings equal to the difference between the MBS' cost and its fair value at the balance sheet date of the reporting period for which the assessment is made. The LOCOM method recognizes the net decrease in value but not the net appreciation in the value of those securities. The fair value of impaired MBS would then become the new cost basis of the MBS and should not be adjusted for subsequent recoveries in fair value. Estimated fair value was determined based on the average of third-party broker quotes received and/or independent pricing sources when available.

The following are the carrying values of Opteum's MBS portfolio as of June 30, 2007 and December 31, 2006:

(in thousands)

	<u>June 30, 2007</u>		<u>December 31, 2006</u>	
Hybrid Arms	\$	213,859	\$	76,488
Adjustable Rate Mortgages		1,171,277		2,105,818
Fixed Rate Mortgages		433,500		626,428
Totals	\$	1,818,636	\$	2,808,734

The following table presents the components of the carrying value of Opteum's MBS portfolio as of June 30, 2007 and December 31, 2006:

(in thousands)

	<u>June 30, 2007</u>		<u>December 31, 2006</u>	
Principal balance	\$	1,801,492	\$	2,779,867
Unamortized premium		72,647		116,114
Unaccreted discount		(253)		(502)
Gross unrealized gains		-		422
Other-than-temporary losses		(55,250)		(9,971)
Gross unrealized losses		-		(77,196)
Carrying value/estimated fair value	\$	1,818,636	\$	2,808,734

As a result of the other-than-temporary impairment of MBS as of June 30, 2007, Opteum's MBS investments are carried on a LOCOM basis and therefore there are no unrealized losses.

The following table presents for Opteum's MBS investments with gross unrealized losses, the estimated fair value and gross unrealized losses aggregated by investment category, as of December 31, 2006:

(in thousands)

	<u>Loss Position More than 12 Months</u>		<u>Loss Position Less than 12 Months</u>		<u>Total</u>	
	<u>Estimated Fair Value</u>	<u>Unrealized Losses</u>	<u>Estimated Fair Value</u>	<u>Unrealized Losses</u>	<u>Estimated Fair Value</u>	<u>Unrealized Losses</u>
Hybrid Arms and Balloon	\$ 67,437	\$ (1,858)	\$ -	\$ -	\$ 67,437	\$ (1,858)
Adjustable Rate Mortgages	1,232,644	(46,715)	348,901	(2,591)	1,581,545	(49,306)
Fixed Rate Mortgages	515,067	(25,662)	48,604	(370)	563,671	(26,032)
	<u>\$ 1,815,148</u>	<u>\$ (74,235)</u>	<u>\$ 397,505</u>	<u>\$ (2,961)</u>	<u>\$ 2,212,653</u>	<u>\$ (77,196)</u>

As of June 30, 2007, all of Opteum's MBS investments have contractual maturities greater than 24 months. Actual maturities of MBS investments are generally shorter than stated contractual maturities. Actual maturities of Opteum's MBS investments are affected by the contractual lives of the underlying mortgages, periodic payments of principal, and prepayments of principal.

As stated in Note 1, the Company believes that the overall decline in fair value of MBS is other-than-temporary as of June 30, 2007. Accordingly, the adjustment to reduce MBS to fair value is recorded in earnings. Generally, the factors considered in making this determination include: the expected cash flow from the MBS investment, the general quality of the MBS owned, any credit protection available, current market conditions, and the magnitude and duration of the historical decline in market prices as well as Opteum's ability and intention to hold the MBS owned. As of June 30, 2007, the Company no longer had the ability and intent to hold such securities until their value could be recovered due to the Company's liquidity and working capital requirements caused by the turmoil in the mortgage market.

As of December 31, 2006, the Company recorded a \$10.0 million loss related to an other-than-temporary impairment on MBS securities identified for sale during the three months ended March 31, 2007. Subsequent to the release of the Company's annual report for the year ended December 31, 2006, the Company sold the balance of such assets and recorded an additional net loss of \$0.8 million. The \$0.8 million loss is included in "Loss on sales of mortgage backed securities" in the accompanying Statements of Operations.

NOTE 4. EARNINGS PER SHARE

Effective November 3, 2005, the Company issued 1.2 million shares of Class A Redeemable Preferred Stock, pursuant to the acquisition of OITRS. Holders of shares of the preferred stock could not receive or accrue dividend payments prior to January 1, 2006. After January 1, 2006, and prior to March 31, 2006, holders of Class A Redeemable Preferred Stock were entitled to receive dividends according to the formula described in the Company's amended Articles of Incorporation. For the Company's first quarter 2006 dividend declared on March 10, 2006, the shares of Class A Redeemable Preferred Stock, although considered to be participating securities, did not receive a dividend pursuant to the formula. Following the provisions of EITF 03-6, the Class A Redeemable Preferred Stock, a participating security prior to conversion on April 28, 2006, was excluded in the computation of basic EPS using the two-class method.

The conversion of the Class A Redeemable Preferred Stock into shares of Class A Common Stock was approved by the stockholders at the Company's 2006 Annual Meeting of Shareholders on April 28, 2006, and the shares of Class A Redeemable Preferred Stock were converted into shares of Class A Common Stock on that date. For purposes of the EPS computation, the conversion of the shares of Class A Redeemable Preferred Stock into shares of Class A Common Stock has been accounted for as of April 28, 2006, and is included in the computation of basic EPS for the Class A Common Stock as of that date. Therefore, the EPS presentation for these securities is not shown.

The Company has dividend eligible stock incentive plan shares that were outstanding during the six and three months ended June 30, 2007 and 2006, respectively. These stock incentive plan shares have dividend participation rights, but no contractual obligation to share in losses. Since there is no such obligation, these incentive plan shares are not included, pursuant to EITF 03-6, in the basic EPS computation for the Class A Common Stock in any period there is a loss from continuing operations, even though they are participating securities. Therefore, the computation of basic and diluted EPS for the Class A Common Stock for the six and three months ended June 30, 2007 excludes 414,991 incentive plan shares.

During the six and three months ended June 30, 2006, 612,268 of incentive plan shares are included in the basic and diluted EPS computations because they are participating securities and there is income from continuing operations during these periods.

The table below reconciles the numerators and denominators of the EPS. See the consolidated statements of operations for the breakdown between continuing operations and discontinued operations.

(in thousands, except EPS per share)

	Six Months Ended		Three Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006

Basic and diluted EPS per Class B common share	\$ (9.65)	\$ (0.37)	\$ (6.52)	\$ (0.05)

NOTE 5. REPURCHASE AGREEMENTS

Opteum has entered into repurchase agreements to finance most of its MBS security purchases. The repurchase agreements are short-term borrowings that bear interest at rates that have historically moved in close relationship to the forward London Interbank Offered Rate ("LIBOR") interest rate curve. As of June 30, 2007, Opteum had an outstanding amount of \$1.8 billion with a net weighted average borrowing rate of 5.24% and these agreements were collateralized by MBS with a fair value of \$1.8 billion. As of December 31, 2006, Opteum had an outstanding amount of \$2.7 billion with a net weighted average borrowing rate of 5.31%, and these agreements were collateralized by MBS with a fair value of \$2.8 billion.

As of June 30, 2007, Opteum's repurchase agreements had remaining maturities as summarized below:

(in thousands)

	OVERNIGHT (1 DAY OR LESS)	BETWEEN 2 AND 30 DAYS	BETWEEN 31 AND 90 DAYS	GREATER THAN 90 DAYS	TOTAL
Agency-Backed Mortgage Backed Securities:					
Amortized cost of securities sold, including accrued interest receivable	\$ -	\$ 783,663	\$ 461,018	\$ 561,373	\$ 1,806,054

Fair market value of securities sold, including accrued interest receivable	\$ -	\$ 758,540	\$ 447,892	\$ 547,456	1,753,888
Repurchase agreement liabilities associated with these securities	\$ -	\$ 750,428	\$ 466,984	\$ 565,919	1,783,331
Net weighted average borrowing rate	-	5.33%	5.32%	5.06%	5.24%

As of December 31, 2006, Opteum's repurchase agreements had remaining maturities as summarized below:

(in thousands)

	OVERNIGHT (1 DAY OR LESS)	BETWEEN 2 AND 30 DAYS	BETWEEN 31 AND 90 DAYS	GREATER THAN 90 DAYS	TOTAL
Agency-Backed Mortgage Backed Securities:					
Amortized cost of securities sold, including accrued interest receivable	\$ —	\$ 859,344	\$ 807,488	\$ 1,149,309	2,816,141
Fair market value of securities sold, including accrued interest receivable	\$ —	\$ 833,436	\$ 793,702	\$ 1,106,228	2,733,366
Repurchase agreement liabilities associated with these securities	\$ —	\$ 842,094	\$ 805,595	\$ 1,093,991	2,741,680
Net weighted average borrowing rate	—	5.31%	5.33%	5.29%	5.31%

As of June 30, 2007, Opteum's repurchase agreements had the following counterparties, amounts at risk and weighted average remaining maturities:

(in thousands)

Repurchase Agreement Counterparties	Amount Outstanding	Amount at Risk(1)	Weighted Average Maturity of Repurchase Agreements in Days	Percent of Total Amount Outstanding
Deutsche Bank Securities, Inc.	\$ 785,347	\$ 10,232	118	44.04 %

(1) Equal to the fair value of securities sold, plus accrued interest income, minus the sum of repurchase agreement liabilities, plus accrued interest expense.

NOTE 6. TRUST PREFERRED SECURITIES

On May 17, 2005, Opteum completed a private offering of \$50.0 million of trust preferred securities of Bimini Capital Trust I ("BCTI"), a Delaware statutory business trust sponsored by Opteum. BCTI used the proceeds of the private offering, together with Opteum's investment of \$1.6 million in BCTI common equity securities, to purchase \$51.6 million aggregate principal amount of Opteum's BCTI Junior Subordinated Notes with terms that parallel the terms of the BCTI trust preferred securities.

The BCTI trust preferred securities and Opteum's BCTI Junior Subordinated Notes have a fixed rate of interest until March 30, 2010, of 7.61% and thereafter, through maturity in 2035, the rate will float at a spread of 3.30% over the prevailing three-month LIBOR rate. The BCTI trust preferred securities and Opteum's BCTI Junior Subordinated Notes require quarterly interest distributions and are redeemable at Opteum's option, in whole or in part and without penalty, beginning March 30, 2010 and at any date thereafter. Opteum's BCTI Junior Subordinated Notes are subordinate and junior in right of payment of all present and future senior indebtedness. The proceeds from the private offering net of costs were approximately \$48.5 million.

On October 5, 2005, Opteum completed a private offering of \$50.0 million of trust preferred securities of Bimini Capital Trust II ("BCTII"), a Delaware statutory business trust sponsored by Opteum. BCTII used the proceeds of the private offering, together with Opteum's investment of \$1.5 million in BCTII common equity securities, to purchase \$51.5 million aggregate principal amount of Opteum's BCTII Junior Subordinated Notes with terms that parallel the terms of the BCTII trust preferred securities.

The BCTII trust preferred securities and Opteum's BCTII Junior Subordinated Notes have a fixed rate of interest until December 15, 2010, of 7.8575% and thereafter, through maturity in 2035, the rate will float at a spread of 3.50% over the prevailing three-month LIBOR rate. The BCTII trust preferred securities and Opteum's BCTII Junior Subordinated Notes require quarterly interest distributions and are redeemable at Opteum's option, in whole or in part and without penalty, beginning December 15, 2010, and at any date thereafter. Opteum's BCTII Junior Subordinated Notes are subordinate and junior in right of payment of all present and future senior indebtedness. The proceeds from the private offering net of costs were approximately \$48.5 million.

Each trust is a variable interest entity pursuant to FIN No. 46 because the holders of the equity investment at risk do not have adequate decision making ability over the trust's activities. Since Opteum's investment in each trust's common equity securities was financed directly by the applicable trust as a result of its loan of the proceeds to Opteum, that investment is not considered to be an equity investment at risk pursuant to FIN No. 46. Since Opteum's common share investments in BCTI and BCTII are not a variable interest, Opteum is not the primary beneficiary of the trusts. Therefore, Opteum has not consolidated the financial statements of BCTI and BCTII into its financial statements. Based on the aforementioned accounting guidance, the accompanying consolidated financial statements present Opteum's BCTI and BCTII Junior Subordinated Notes issued to the trusts as liabilities and Opteum's investments in the common equity securities of BCTI and BCTII as assets. For financial statement purposes, Opteum records payments of interest on the Junior Subordinated Notes issued to BCTI and BCTII as interest expense.

NOTE 7. CAPITAL STOCK

Issuances of Class A Common Stock

During the six and three months ended June 30, 2007, the Company issued a total of 11,042 and 5,068 shares, respectively, of Class A Common Stock to its independent directors for the payment of director fees for services rendered.

During the six and three months ended June 30, 2007, the Company issued 76,801 and 42,273 shares, respectively, of its Class A Common Stock to employees pursuant to the terms of the stock incentive plan phantom share grants (see Note 8).

Dividends Declared and Paid in 2007

On March 9, 2007, the Company's Board of Directors declared a \$0.05 per share cash dividend to the holders of its dividend eligible securities on the record date of March 26, 2007. The distribution totaling \$1.3 million was paid on April 13, 2007.

Other Classes of Common and Preferred Stock

There was no change in the issued and outstanding shares of the Company's Class B and Class C Common Stock or its Class A and Class B Redeemable Preferred Stock during the six and three months ended June 30, 2007.

NOTE 8. STOCK INCENTIVE PLANS

On December 1, 2003, Opteum adopted the 2003 Long Term Incentive Compensation Plan (the "2003 Plan") to provide Opteum with the flexibility to use stock options and other awards as part of an overall compensation package to provide a means of performance-based compensation to attract and retain qualified personnel. The 2003 Plan was amended and restated in March 2004. Key employees, directors and consultants are eligible to be granted stock options, restricted stock, phantom shares, dividend equivalent rights and other stock-based awards under the 2003 Plan. Subject to adjustment upon certain corporate transactions or events, a maximum of 4,000,000 shares of the Class A Common Stock (but not more than 10% of the Class A Common Stock outstanding on the date of grant) may be subject to stock options, shares of restricted stock, phantom shares and dividend equivalent rights under the 2003 Plan.

During the six months ended June 30, 2007, Opteum granted 25,607 phantom shares to employees with an aggregate fair value of \$0.2 million. For the three months ended June 30, 2007, Opteum granted no phantom shares to employees. Each phantom share represents a right to receive a share of Opteum's Class A Common Stock. Dividend equivalent rights were also granted on these phantom shares.

Phantom share awards are valued at the fair value of Opteum's Class A Common Stock at the date of the grant. The total grant date value of all awards since the inception of the 2003 Plan is \$10.0 million. The phantom share awards do not have an exercise price. The grant date value is being amortized to compensation expense on a straight-line basis over the vesting period of the respective award. The phantom shares vest, based on the employees' continuing employment, following a schedule as provided in the grant agreements, for periods through December 15, 2009.

As of June 30, 2007, a total of 759,457 phantom share awards have been granted since the inception of the 2003 Plan, however 6,446 phantom shares have been forfeited due to the termination of the grantee's employment. The future compensation charge that was eliminated by the forfeitures totaled \$68,065. Of the phantom shares not forfeited, 502,302 phantom shares have fully vested since inception of the 2003 Plan and 250,709 phantom shares remain unvested as of June 30, 2007. Of the 502,302 phantom shares that have fully vested, 337,520 phantom shares have been settled as of June 30, 2007 and an equivalent number of shares of the Company's Class A Common Stock have been issued to grantees or surrendered by grantees to pay income taxes. As of June 30, 2007, there were 164,782 phantom shares that, although fully vested as of such date, had not been settled. No phantom share awards have expired.

For the six and three months ended June 30, 2007, 113,685 and 61,724 phantom shares were settled and an equivalent number of shares of the Company's Class A Common Stock were issued to grantees or surrendered by grantees to pay income taxes. For the six and three months ended June 30, 2006, 53,157 and 103,407 phantom shares, respectively, were settled and an equivalent number of shares of the Company's Class A Common Stock were issued to grantees or surrendered by grantees to pay income taxes. As of June 30, 2007, there were 415,491 phantom shares outstanding that had not been settled as of such date, 250,709 of which were unvested and 164,782 of which were vested. Total compensation cost recognized for the six and three months ended June 30, 2007 was \$1.4 million and \$0.7 million, respectively. Total compensation cost recognized for the six and three months ended June 30, 2006 was \$1.4 million and \$0.7 million, respectively. Dividends paid on unsettled phantom shares are charged to retained earnings when declared.

Opteum also has adopted the 2004 Performance Bonus Plan (the "Performance Bonus Plan"). The Performance Bonus Plan is an annual bonus plan that permits the issuance of the Company's Class A Common Stock in payment of stock-based awards made under the plan. No stock-based awards have been made under and no shares of the Company's stock have been issued under the Performance Bonus Plan.

NOTE 9. COMMITMENTS AND CONTINGENCIES

Outstanding Litigation. The Company is involved in various lawsuits and claims, both actual and potential, including some that it has asserted against others, in which monetary and other damages are sought. These lawsuits and claims relate primarily to contractual disputes arising out of the ordinary course of the Company's business. The outcome of such lawsuits and claims is inherently unpredictable. However, management believes that, in the aggregate, the outcome of all lawsuits and claims involving the Company will not have a material effect on the Company's consolidated financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized.

As part of the November 3, 2005 merger pursuant to which OITRS became a wholly-owned subsidiary of Opteum, the parties to the Agreement and Plan of Merger and Reorganization (the "Merger Agreement") agreed to special resolution procedures concerning certain litigation matters in which OITRS was a party and that was pending at the time of the merger. Certain provisions of the Merger Agreement specified the manner in which four separate litigation matters would be treated for purposes of determining the rights and obligations of the parties to the Merger Agreement. In two of these matters, OITRS was the plaintiff and was seeking money damages from third parties. In the other two matters, OITRS was a defendant and was defending itself against claims for money damages.

Pursuant to the terms of the Merger Agreement, the former owners of OITRS must indemnify the Company for any liabilities arising from the two matters in which OITRS was a defendant. In addition, the former owners of OITRS are entitled to receive any amounts paid to the Company upon the settlement or final resolution of the two matters in which OITRS was the plaintiff.

Guarantees. Opteum has guaranteed the obligations of OITRS and OITRS's wholly-owned subsidiary, HS Special Purpose, LLC, under their respective financing facilities with JPMorgan Chase and Citigroup described in Note 12. These guarantees will remain in effect so long as the applicable financing facilities remain in effect. If an Event of Default occurs under these financing facilities that are not cured or waived, Opteum may be required to perform under its guarantees. There is no specific limitation on the maximum potential future payments under these guarantees. However, Opteum's liability under these guarantees would be reduced in an amount equal to the amount by which the collateral securing such obligations exceeds the amounts outstanding under the applicable facilities.

NOTE 10. INCOME TAXES

Taxable income, as generated by Opteum's qualifying REIT activities, is computed differently from Opteum's financial statement net income as computed in accordance with GAAP. Depending on the number and size of the various items or transactions being accounted for differently, the differences between Opteum's REIT taxable income and Opteum's financial statement net income (loss) can be substantial and each item can affect several years. Since inception through June 30, 2007, Opteum's REIT taxable income is approximately \$91.0 million greater than Opteum's financial statement net income as reported in its financial statements.

For the six months ended June 30, 2007, Opteum's REIT taxable loss was approximately \$76.1 million less than Opteum's financial statement net loss from REIT activities. During 2007, Opteum's most significant items and transactions being accounted for differently include the \$55.3 million other-than-temporary loss on MBS recorded at June 30, 2007, interest on inter-company loans with OITRS, equity plan stock awards, depreciation of property and equipment, the accounting for debt issuance costs and losses realized on certain MBS sales. The debt issuance costs are being amortized, and property and equipment are being depreciated, over different useful lives for tax purposes. The future deduction of equity plan stock compensation against REIT taxable income is uncertain as to the amount, because the tax impact is measured at the fair value of the shares as of a future date, and this amount may be greater than or less than the financial statement expense already recognized by Opteum. The \$55.3 million other-than-temporary loss on MBS recorded during the three months ended June 30, 2007 is not recognized for tax purposes, as it does not represent an actual sale of any MBS securities by Opteum. For tax purposes, the gain or loss on MBS sales are recognized only when the actual sale transaction is completed.

During the six months ended June 30, 2007, tax capital losses of approximately \$29.4 million were realized; these capital losses are only available to the REIT to offset future capital gains, and therefore they do not reduce REIT taxable income.

NOTE 11. SUBSEQUENT EVENTS

On July 25, 2007, OITRS entered into a binding agreement to sell a majority of its remaining private-label and agency mortgage servicing portfolio, which had an aggregate unpaid principal balance of approximately \$3.0 billion as of June 30, 2007. The aggregate sales proceeds will be used to repay debt that is currently secured by OITRS's mortgage servicing portfolio. The transaction, which is subject to various closing conditions, is expected to be completed by September 4, 2007. The transaction is not expected to result in a material gain or loss.

Opteum, then known as Bimini, acquired Opteum Financial Services, LLC on November 3, 2005. This entity, which was previously referred to as "OFS," was renamed Orchid Island TRS, LLC effective July 3, 2007.

NOTE 12. DISCONTINUED OPERATIONS-OITRS

(a) - Background and activities as of March 31, 2007

Beginning in April 2007, the Board of Managers of OITRS, at the recommendation of and with the approval of the Board of Directors of Opteum, began a process that would eventually result in the sale or closure of all business operations within OITRS. The decision to sell and/or close OITRS was made after evaluation of, among other things, short and long-term business prospects for OITRS, and its ability to recover from recent large operating losses. Due to this decision, all OITRS assets are considered as held for sale in the second quarter of 2007, and have been accounted for as discontinued operations under applicable accounting standards for all periods presented.

The impact of these decisions on the March 31, 2007 financial statements included OITRS recording impairment charges on goodwill and other intangible assets and on certain fixed assets. In accordance with SFAS No. 144, the closure and/or sale of mortgage loan origination channels required management to test the associated long lived assets for recoverability. In connection with the testing of recoverability of the long lived assets, OITRS recorded an impairment charge of \$6.0 million during the three months ended March 31, 2007. Further, in accordance with SFAS 144, such long lived assets were reported by OITRS as held for use as of March 31, 2007. As of June 30, 2007, these assets are now included in discontinued operations.

In accordance with SFAS No. 142, the goodwill assigned to OITRS and the "Opteum" trade name intangible asset were not subject to amortization, but were tested for impairment at March 31, 2007 based on a change in circumstances. The closure and/or sale of the wholesale and conduit mortgage loan origination channels constituted such an event that required impairment analyses on the goodwill and other intangibles not subject to amortization. Accordingly, OITRS recorded impairment charges for both goodwill and other intangible assets not subject to amortization of approximately \$2.8 million as of March 31, 2007.

(b) - Activities during the three months ended June 30, 2007

On April 18, 2007, the Board of Managers of OITRS approved the closure of OITRS's wholesale and conduit mortgage origination channels. On April 20, 2007, the wholesale and conduit mortgage loan origination channels ceased accepting applications for new mortgages from borrowers.

On April 26, 2007, OITRS entered into a binding agreement to sell a majority of its private-label and agency mortgage servicing portfolio, which had an aggregate unpaid principal balance of approximately \$5.9 billion as of March 31, 2007. The aggregate sales proceeds were used to repay debt that was secured by OITRS's mortgage servicing portfolio. All servicing was transferred to the buyer on or before July 2, 2007. The transaction resulted in a loss of \$2.8 million.

On May 7, 2007, OITRS signed a binding agreement to sell its retail mortgage loan origination channel to a third party. On June 30, 2007, OITRS entered into an amendment to this agreement. The sales price was \$1.5 million plus the assumption of certain liabilities, including the assumption of certain future operating lease obligations of OITRS.

The closure of the wholesale and conduit mortgage loan origination channels, coupled with sale of the retail channel, resulted in charges associated with severance payments to employees and operating lease termination costs, among other less significant costs. Approximately \$0.7 million of such costs were paid in the three months ended June 30, 2007, and approximately \$6.9 million of such costs remain accrued and unpaid at June 30, 2007. The costs associated with the closure of the wholesale and conduit origination sale, coupled with the sale of the retail channel, resulted in a loss on disposal of \$10.5 million. No income tax benefit or provision was recorded as a result of this loss.

The following table summarizes the OITRS assets held for sale and liabilities related to the assets held for sale, as of June 30, 2007 and December 31, 2006:

(in thousands)

	June 30, 2007	December 31, 2006
Cash and cash equivalents	\$ 706	\$ 9,754

Net loss from discontinued operations	\$ (80,446)	\$ (11,431)

(c) - Significant accounting policies of OITRS

The following accounting policies were applicable prior to the discontinuation of the residential mortgage origination operations. Going forward such policies generally will not be applicable to OITRS as it no longer originates residential mortgage loans. OITRS will continue to own originated mortgage servicing rights and retained interests in securitizations, but will not generate any such assets in the future.

Mortgage Loans Held for Sale. Mortgage loans held for sale represent mortgage loans originated and held by the Company pending sale to investors. The mortgages are carried at the lower of cost or market as determined by outstanding commitments from investors or current investor yield requirements calculated on the aggregate loan basis. Deferred net fees or costs are not amortized during the period the loans are held for sale, but are recorded when the loan is sold. The Company generally, but not always, sells or securitizes loans with servicing rights retained. These transfers of financial assets are accounted for as sales for financial reporting purposes when control over the assets has been surrendered. Control over transferred assets is surrendered when (i) the assets have been isolated from the Company; (ii) the purchaser obtains the right, free of conditions that constrain such purchaser from taking advantage of that right, to pledge or exchange the transferred assets and (iii) the Company does not maintain effective control over the transferred assets through an agreement to repurchase them before their maturity. These transactions are treated as sales in accordance with SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishment of Liabilities*. Gains or losses on such sales are recognized at the time legal title transfers to the purchaser and are based upon the difference between the sales proceeds from the purchaser and the allocated basis of the loan sold, adjusted for net deferred loan fees and certain direct costs and selling costs. A valuation allowance is recorded to adjust mortgage loans held for sale to the lower of cost or market.

Retained Interest, Trading. The Company uses warehouse loan arrangements to finance the origination and purchase of pools of fixed and adjustable-rate residential mortgage loans (the "Mortgage Loans"). Subsequent to their origination or purchase, OITRS either sells these Mortgage Loans to third-party institutional investors through bulk sale arrangements or through securitization transactions. The Company generally makes several representations and warranties regarding the performance of the Mortgage Loans in connection with each sale or securitization.

In a securitization, the Company accumulates the desired amount of Mortgage Loans and securitizes them in order to create marketable securities. First, pursuant to a Mortgage Loan Purchase Agreement ("MLPA"), the Company sells Mortgage Loans to Opteum Mortgage Acceptance Corporation ("OMAC"), the Company's wholly-owned special purpose entity created for the execution of these securitizations. Under this MLPA, the Company makes general representations and warranties for the Mortgage Loans sold by the Company to OMAC.

OMAC then deposits the Mortgage Loans purchased from the Company into a Real Estate Mortgage Investment Conduit ("REMIC") trust where, pursuant to a Pooling and Servicing Agreement ("P&S Agreement"), the rights to the cash flows associated with such Mortgage Loans are sold to investors in the form of marketable debt securities. These securities, issued by the REMIC trust, are divided into different classes of certificates (the "Certificates") with varying claims to payments received on the Mortgage Loans.

Certain of these Certificates are offered to the public (the "Public Certificates") pursuant to a prospectus. These Public Certificates are sold to underwriters on the closing date pursuant to an underwriting agreement. The proceeds from the sale of the Public Certificates to the underwriters (less an underwriting discount) are ultimately transferred to the Company as partial consideration for the Mortgage Loans sold to OMAC pursuant to the MLPA.

Finally, subsequent to a securitization transaction as described above, the Company typically executes an additional net interest margin (“NIM”) securitization, or “resecuritization” of the non-publicly offered Certificates, representing prepayment penalties and over-collateralization fundings (the “Underlying Certificates”). This NIM securitization is typically transacted as follows:

OMAC first deposits the Underlying Certificates into a trust (the “NIM Trust”) pursuant to a deposit trust agreement. The NIM Trust, pursuant to an indenture, then issues (i) notes (the “NIM Notes”) representing interests in the Underlying Certificates and (ii) an owner trust certificate (the “Owner Trust Certificate”) representing the residual interest in the NIM Trust. The NIM Notes are sold to third parties via private placement transactions. The net proceeds from the sale of the NIM Notes and the Owner Trust Certificate are then transferred from OMAC to the Company. The Owner Trust Certificates from the Company’s various securitizations represent retained interests, trading which are included in discontinued operations on the accompanying consolidated balance sheet.

Mortgage Servicing Rights. The Company recognizes mortgage servicing rights (“MSRs”) as an asset when separated from the underlying mortgage loans in connection with the sale of such loans. Upon sale of a loan, the Company measures the retained MSRs by allocating the total cost of originating a mortgage loan between the loan and the servicing right based on their relative fair values. The estimated fair value of MSRs is determined by obtaining a market valuation from a specialist who brokers MSRs. The broker, Interactive Mortgage Advisors, LLC, is 50% owned by OITRS. To determine the market valuation, the broker uses a valuation model that incorporates assumptions relating to the estimate of the cost of servicing the loan, a discount rate, a float value, an inflation rate, ancillary income of the loan, prepayment speeds and default rates that market participant’s use for acquiring similar servicing rights. Gains or losses on the sale of MSRs are recognized when title and all risks and rewards have irrevocably passed to the purchaser of such MSRs and there are no significant unresolved contingencies.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets*. SFAS 156 amends SFAS 140 with respect to the accounting for separately-recognized servicing assets and liabilities. SFAS 156 requires all separately-recognized servicing assets and liabilities to be initially measured at fair value and permits companies to elect, on a class-by-class basis, to account for servicing assets and liabilities on either a lower of cost or market value basis or a fair value measurement basis. OITRS elected to early adopt SFAS 156 as of January 1, 2006, and to measure all mortgage servicing assets at fair value (and as one class). As a result of adopting SFAS 156, OITRS recognized a \$2.6 million after-tax (\$4.3 million pre-tax) increase in retained earnings as of January 1, 2006, representing the cumulative effect adjustment of re-measuring all servicing assets and liabilities that existed as of December 31, 2005, from a lower of amortized cost or market basis to a fair value basis.

Property and equipment, net. In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets* (“SFAS 144”), the closure and/or sale of mortgage loan origination channels required management to test the associated long lived assets for recoverability. In connection with the testing of recoverability of the long lived assets, OITRS recorded an impairment charge of \$6.0 million for the three months ended March 31, 2007. OITRS sold or wrote-off all depreciable or amortizable property and equipment by June 30, 2007 applicable to the residential mortgage origination business.

Gain (Loss) on Sale of Loans. Gains or losses on the sale of mortgage loans are recognized at the time legal title transfers to the purchaser of such loans based upon the difference between the sales proceeds from the purchaser and the allocated basis of the loan sold, adjusted for net deferred loan fees and certain direct costs and selling costs. The Company defers net loan origination costs and fees as a component of the loan balance on the balance sheet. Such costs are not amortized and are recognized into income as a component of the gain or loss upon sale. Accordingly, salaries, commissions, benefits and other operating expenses of \$22.2 million and \$9.9 million, for the six and three months ended June 30, 2007 and \$30.2 million and \$14.3 million, respectively, for the six and three months ended June 30, 2006 were capitalized as direct loan origination costs and reflected in the basis of loans sold for gain on sale recognition purposes. The net (loss) on mortgage banking activities for the six and three months ended June 30, 2007 was (\$61.8) million and (\$43.9) million and for the six and three months ended June 30, 2006 was (\$2.9) million and (\$5.9) million, respectively.

Servicing Fee Income. Servicing fee income is generally a fee based on a percentage of the outstanding principal balances of the mortgage loans serviced by the Company (or by a subservicer where the Company is the master servicer) and is recorded as income as the installment payments on the mortgages are received by the Company or the subservicer.

Income taxes. OITRS and its activities are subject to corporate income taxes and the applicable provisions of SFAS No. 109, *Accounting for Income Taxes*. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. To the extent management believes deferred tax assets will not be fully realized in future periods, a provision is recorded so as to reflect the net portion, if any, of the deferred tax asset management expects to realize.

(d) - Mortgage Loans Held for Sale

Prior to ceasing operations, upon the closing of a residential mortgage loan or shortly thereafter, OITRS would sell or securitize the majority of its mortgage loan originations. OITRS also sold mortgage loans insured or guaranteed by various government-sponsored entities and private insurance agencies. The insurance or guaranty is provided primarily on a nonrecourse basis to OITRS, except where limited by the Federal Housing Administration and Veterans Administration and their respective loan programs. As of June 30, 2007, OITRS serviced approximately \$3.6 billion of mortgage loans sold into the secondary market. Mortgage loans held for sale consist of the following as of June 30, 2007 and December 31, 2006:

(in thousands)

	<u>June 30, 2007</u>	<u>December 31, 2006</u>
Mortgage loans held for sale, and other, net	\$ 104,573	\$ 741,545
Deferred loan origination costs and other-net	1,155	9,188
Lower of cost or market and valuation allowance	(12,184)	(899)
	<u>\$ 93,544</u>	<u>\$ 749,834</u>

Included in mortgage loans held for sale above are IRLCs. Fluctuations in the fair market value of IRLCs and other derivatives employed for hedging are reflected in the consolidated statement of operations under discontinued operations.

(e) - Retained Interest, Trading

Retained interest, trading is the subordinated interests retained by OITRS resulting from securitizations and includes the over-collateralization and residual net interest spread remaining after payments to the Public Certificates and NIM Notes. Retained interest, trading represents the present value of estimated cash flows to be received from these subordinated interests in the future. The subordinated interests retained are classified as “trading securities” and are reported at fair value with unrealized gains or losses reported in earnings.

All of OITRS’s securitizations were structured and are accounted for as sales in accordance with SFAS No. 140, *Accounting for Transfers and Servicing of Financial Assets and Extinguishments of Liabilities*. Generally, to meet the sale treatment requirements of SFAS No. 140, the REMIC trust is structured as a “qualifying special purpose entity” or QSPE, which specifically limits the REMIC trust’s activities, and OITRS surrenders control over the mortgage loans upon their transfer to the REMIC trust.

Valuation of Investments. OITRS classifies its retained interests as trading securities and therefore records these securities at their estimated fair value. In order to value the unrated, unquoted, investments, OITRS will record these assets at their estimated fair value utilizing pricing information available directly from dealers and the present value calculated by projecting the future cash flows of an investment on a publicly available analytical system. When a publicly available analytical system is utilized, OITRS will input the following variable factors which will have an impact on determining the market value:

Interest Rate Forecast. LIBOR interest rate curve.

Discount Rate. The present value of all future cash flows utilizing a discount rate assumption established at the discretion of OITRS to represent market conditions and value of similar instruments with similar risks. Discount rates used will vary over time. Management observes discount rates used for assets with similar risk profiles. In selecting which assets to monitor for variations in discount rates, management seeks to identify assets that share most, if not all of the risk attributes of the Company’s retained interests, trading. Such assets are typically traded between market participants whereby the discount rate is the primary variable.

Prepayment Forecast. The prepayment forecast may be expressed by OITRS in accordance with one of the following standard market conventions: 1) Constant Prepayment Rate (CPR) or 2) Percentage of a Prepayment Vector (PPV). Prepayment forecasts may be changed as OITRS observes trends in the underlying collateral as delineated in the Statement to Certificate Holders generated by the REMIC trust’s Trustee for each underlying security. Prepayment forecast will also vary over time as the level of interest rates change, the difference between rates available to borrowers on adjustable rate versus fixed rate mortgages change and non-interest rate related variables fluctuate such as home price appreciation, among others.

Credit Performance Forecast. A forecast of future credit performance of the underlying collateral pool will include an assumption of default frequency, loss severity, and a recovery lag. In general, OITRS will utilize the combination of default frequency and loss severity in conjunction with a collateral prepayment assumption to arrive at a target cumulative loss to the collateral pool over the life of the pool based on historical performance of similar collateral by the originator. The target cumulative loss forecast will be developed and noted at the pricing date of the individual security but may be updated by OITRS consistent with observations of the actual collateral pool performance. The Company utilizes a third party source to forecast credit performance.

Default Frequency may be expressed by OITRS in accordance with any of three standard market conventions: 1) Constant Default Rate (CDR) 2) Percentage of a Standard Default Assumption (SDA) curve, or 3) a vector or curve established to meet forecasted performance for specific collateral pools.

Loss Severity will be expressed by OITRS in accordance with historical performance of similar collateral and the standard market conventions of a percentage of the unpaid principal balance of the forecasted defaults lost during the foreclosure and liquidation process.

During the first year of a new issue OITRS may balance positive or adverse effects of the prepayment forecast and the credit performance forecast allowing for deviation between actual and forecasted performance of the collateral pool. After the first year OITRS will generally adjust the Prepayment and Credit Performance Forecasts to replicate actual performance trends without balancing adverse and positive effects.

The following table summarizes OITRS’s residual interests in securitizations as of June 30, 2007 and December 31, 2006:

(in thousands)

Series	Issue Date	June 30, 2007	December 31, 2006
HMAC 2004-1	March 4, 2004	\$ 1,946	\$ 2,948
HMAC 2004-2	May 10, 2004	749	1,939
HMAC 2004-3	June 30, 2004	90	362
HMAC 2004-4	August 16, 2004	952	1,544
HMAC 2004-5	September 28, 2004	3,147	4,545
HMAC 2004-6	November 17, 2004	6,428	9,723
OMAC 2005-1	January 31, 2005	7,538	13,331
OMAC 2005-2	April 5, 2005	9,841	14,259
OMAC 2005-3	June 17, 2005	11,871	16,091
OMAC 2005-4	August 25, 2005	10,079	12,491
OMAC 2005-5	November 23, 2005	7,566	8,916
OMAC 2006-1	March 23, 2006	9,735	13,219
OMAC 2006-2	June 26, 2006	3,856	4,831
Total		\$ 73,798	\$ 104,199

Key economic assumptions used in measuring the fair value of retained interests at the date of securitization resulting from securitizations completed in 2006 were as follows:

	December 31, 2006
Prepayment speeds (CPR)	36.25%
Weighted-average-life	4.18
Expected credit losses	0.74%
Discount rates	16.81%
Interest rates	Forward LIBOR Yield curve

As of June 30, 2007 and December 31, 2006, key economic assumptions and the sensitivity of the current fair value of residual cash flows to the immediate 10% and 20% adverse change in those assumptions are as follows:

(in thousands)

	June 30, 2007	December 31, 2006
Carrying value of retained interests – fair value	\$ 73,798	\$ 104,199
Weighted average life (in years)	4.65	4.26
Prepayment assumption (annual rate)	33.78%	37.88%
Impact on fair value of 10% adverse change	\$ (4,821)	\$ (8,235)
Impact on fair value of 20% adverse change	\$ (8,873)	\$ (14,939)
Expected credit losses (% of original unpaid principal balance)	0.55%	0.56%
Impact on fair value of 10% adverse change	\$ (2,642)	\$ (3,052)
Impact on fair value of 20% adverse change	\$ (5,365)	\$ (6,098)
Residual cash-flow discount rate	17.35%	16.03%
Impact on fair value of 10% adverse change	\$ (3,542)	\$ (4,575)
Impact on fair value of 20% adverse change	\$ (6,767)	\$ (8,771)
Interest rates on variable and adjustable loans and bonds	Forward LIBOR Yield Curve	Forward LIBOR Yield Curve
Impact on fair value of 10% adverse change	\$ (24,550)	\$ (18,554)
Impact on fair value of 20% adverse change	\$ (43,031)	\$ (39,292)

These sensitivities are hypothetical and should be used with caution. As the figures indicate, changes in fair value based upon a 10% variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of the variation in a particular assumption on the fair value of the retained interest is calculated without changing any other assumption, in reality, changes in one factor may result in changes in another which may magnify or counteract the sensitivities. To estimate the impact of a 10% and 20% adverse change of the Forward LIBOR curve, a parallel shift in the forward LIBOR curve was assumed based on the Forward LIBOR curve as of June 30, 2007 and December 31, 2006.

Static pool loss percentages are calculated by using the original unpaid principal balance of each pool of assets as the denominator. The following static pool loss percentages are calculated based upon all OITRS securitizations that have been completed to date:

(in thousands)

Series	Issue Date	Original Unpaid Principal Balance	Actual Losses Through June 30, 2007	Projected Future Credit Losses as of June 30, 2007	Projected Total Credit Losses as of June 30, 2007
HMAC 2004-1	March 4, 2004	\$ 309,710	0.20%	0.14%	0.34%
HMAC 2004-2	May 10, 2004	388,737	0.42%	0.12%	0.54%
HMAC 2004-3	June 30, 2004	417,055	0.18%	0.15%	0.33%
HMAC 2004-4	August 16, 2004	410,123	0.17%	0.14%	0.31%
HMAC 2004-5	September 28, 2004	413,875	0.15%	0.27%	0.42%
HMAC 2004-6	November 17, 2004	761,027	0.31%	0.32%	0.63%
OMAC 2005-1	January 31, 2005	802,625	0.15%	0.28%	0.43%
OMAC 2005-2	April 5, 2005	883,987	0.12%	0.34%	0.46%
OMAC 2005-3	June 17, 2005	937,117	0.08%	0.33%	0.41%
OMAC 2005-4	August 25, 2005	1,321,739	0.04%	0.54%	0.58%
OMAC 2005-5	November 23, 2005	986,277	0.04%	0.59%	0.63%
OMAC 2006-1	March 23, 2006	934,441	0.01%	0.66%	0.67%
OMAC 2006-2	June 26, 2006	491,572	0.00%	1.25%	1.25%
Total		\$ 9,058,285			

The table below summarizes certain cash flows received from and paid to securitization trusts:

(in thousands)

	Six Months Ended	
	June 30, 2007	June 30, 2006
Proceeds from securitizations	\$ -	\$ 1,436,838
Servicing fees received	9,691	9,252
Servicing advances	1,433	1,550
Cash flows received on retained interests	2,909	2,009

The following information presents quantitative information about delinquencies and credit losses on securitized financial assets as of June 30, 2007 and December 31, 2006:

(in thousands)

As of Date	Total Principal Amount of Loans	Principal Amount of Loans 60 Days or more	Net Credit Losses
June 30, 2007	\$ 5,041,845	\$ 260,012	\$ 10,657
December 31, 2006	5,849,013	138,205	5,210

(f) – Mortgage Servicing Rights, Net

As permitted by the effective date provisions of SFAS No. 156, the Company early adopted SFAS No. 156 as of January 1, 2006 with respect to the valuation of its MSRs.

Activities for MSRs are summarized as follows for the six months ended June 30, 2007 and for the year ended December 31, 2006:

(in thousands)

	June 30, 2007	December 31, 2006
Balance at beginning of period	\$ 98,859	\$ 86,082
Adjustment to fair value upon adoption of SFAS 156 as of January 1, 2006	-	4,298
Additions	7,693	43,175
Changes in fair value:		
Changes in fair value due to changes in market conditions and run-off	(12,330)	(33,551)
Changes in fair value due to change in valuation assumptions	(4,630)	(1,145)
Less servicing sold	(56,440)	-
Fair value at end of period	33,152	98,859
Less cost to sell	(1,007)	-
Balance at end of period	\$ 32,145	\$ 98,859

The Company elected to account for all originated MSRs as one class and, therefore, all MSRs are carried at fair value. As a result of the early adoption of SFAS 156, the carrying value of the MSRs were increased by approximately \$4.3 million (pre-tax) as of January 1, 2006. As required by the provisions of SFAS 156, the net of tax effect was recorded as a cumulative effect adjustment to retained earnings of OITRS as of January 1, 2006. In addition, changes in value due to run-offs of the portfolio are recorded as valuation adjustments instead of amortization.

The fair value of MSRs is determined using discounted cash flow techniques based on market assumptions. Changes in fair value are the result of changes in market conditions, changes in valuation assumptions and run-off of the underlying mortgage loans. Changes in fair value due to run-off of the underlying mortgage loans and changes in value due to changes in market conditions are grouped together above. When the underlying assumptions used for valuation purposes are changed, the effect on fair value is presented separately. For the six and three months ended June 30, 2007 and 2006, such changes to the underlying assumptions resulted in changes in fair value of (\$4.6) million and (\$2.1) million and (\$1.1) million and (\$1.1) million, respectively. During the six and three months ended June 30, 2007 and 2006, the MSR value increased/(decreased) by (\$66.7) million and (\$59.8) million and \$10.6 million and \$3.3 million, respectively. The decreases for the six and three months ended June 30, 2007 include the sale of \$56.4 million of MSR. Excluding the MSR sale, the decreases for the six and three months ended June 30, 2007, were (\$9.3) million plus the cost to sell of (\$1.0) million and (\$2.4) million plus the cost to sell for (\$1.0) million, respectively. Additions to the servicing portfolio, net of run-off, for the six and three months ended June 30, 2007 and 2006, were \$1.6 million and \$1.0 million and \$6.6 million and \$1.1 million, respectively. The balance of the changes in fair value for the six and three months ended June 30, 2007 and 2006, were the result of changes market conditions. Estimates of fair value involve several assumptions, including the key valuation assumptions about market expectations of future prepayment rates, interest rates and discount rates. Prepayment rates are projected using a prepayment model. The model considers key factors, such as refinance incentive, housing turnover, seasonality and aging of the pool of loans. Prepayment speeds incorporate expectations of future rates implied by the forward LIBOR/swap curve, as well as collateral specific information.

As of June 30, 2007 and December 31, 2006, key economic assumptions and the sensitivity of the current fair value of MSR rights cash flows to the immediate 10% and 20% adverse change in those assumptions are as follows: (Note: base case prepayment and discount rate assumptions are a weighted average of the values applied to the various mortgage loans).

(in thousands)

	June 30, 2007	December 31, 2006
Prepayment assumption (annual rate) (PSA)	387.9	424.6
Impact on fair value of 10% adverse change	\$ (1,311)	\$ (3,923)
Impact on fair value of 20% adverse change	\$ (2,494)	\$ (7,557)
MSR Cash-Flow Discount Rate	14.50%	14.50%
Impact on fair value of 10% adverse change	\$ (1,194)	\$ (3,505)
Impact on fair value of 20% adverse change	\$ (2,296)	\$ (6,727)

These sensitivities are entirely hypothetical and should be used with caution. As the figures indicate, changes in fair value based upon 10% and 20% variations in assumptions generally cannot be extrapolated to greater or lesser percentage variation because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of the variation in a particular assumption on the fair value of the MSR is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another which may magnify or counteract the sensitivities.

(g) - Warehouse lines of credit and drafts payable

OITRS issues drafts or wires at loan settlement in order to facilitate the closing of mortgage loans held for sale. Drafts payable represent mortgage loans on which a closing has occurred prior to quarter end but the related drafts have not cleared the respective bank. Upon clearing the bank, the drafts are funded

by the appropriate warehouse line of credit. Warehouse and aggregate lines of credit and loan sale agreements accounted for as financing consisted of the following as of June 30, 2007 and December 31, 2006:

(in thousands)

Warehouse and aggregation lines of credit:	June 30, 2007	December 31, 2006
A committed warehouse line of credit for \$100.0 million between OITRS and Residential Funding Corporation ("RFC"). The agreement expired on February 28, 2007 and was not renewed. RFC is now a party to the JPM syndicated facility below.	\$ -	\$ 6,172
A syndicated committed warehouse line of credit for \$850.0 million as of December 31, 2006, between OITRS and JP Morgan Chase ("JPM"). The agreement was scheduled to expire on May 30, 2007. The agreement was extended until July 31, 2007 and the limit reduced in stages, initially to \$155 million through June 30, 2007 and \$50.0 million through July 31, 2007. The agreement provides for interest rates based upon one month LIBOR plus a margin of 0.60% to 1.50% depending on the product originated or acquired. During the extension period the applicable margin was increased to 1.5% on all borrowings.	22,272	409,609
An aggregation facility for \$1.5 billion as of December 31, 2006 for the whole loan and servicing rights facility, collectively, (of which no more than \$100.0 million as of December 31, 2006 may be allocated to the servicing rights facility) between HS Special Purpose, LLC, a wholly-owned subsidiary of OITRS, and Citigroup Global Markets Realty Corp. ("Citigroup") to aggregate loans pending securitization. The agreement was scheduled to expire on December 20, 2007. The agreement provides for interest rates based upon one month LIBOR plus a margin of 0.30%. The facility was amended on May 25, 2007 and the limit was reduced to \$300 million and is now scheduled to expire September 30, 2007. On August 9, 2007, the facility was further amended and the limit was reduced to \$40 million.	37,233	5,358
A \$750.0 million purchase and security agreement between OITRS and UBS Warburg Real Estate Securities, Inc. ("UBS Warburg"). The agreement expired on February 28, 2007 and was not renewed.	-	3,283
Drafts payable	-	6,542
Loan sale agreements accounted for as financings:		
An uncommitted \$700.0 million purchase agreement between OITRS and Colonial Bank. The facility is due upon demand and can be cancelled by either party upon notification to the counterparty. OITRS incurs a charge for the facility based on one month LIBOR plus 0.50% for the first \$300.0 million purchased and one month LIBOR plus 0.75% for the amount used above and beyond \$300.0 million. The facility is secured by loans held for sale and cash generated from sales to investors. The borrowing capacity of the facilities was reduced to \$30 million effective July 1, 2007 and both parties agreed to cancel the facility effective July 31, 2007.	29,754	303,915
Total warehouse lines and drafts payable	\$ 89,259	\$ 734,879

In addition to the JPM, Citigroup, and Colonial Bank facilities, OITRS has purchase and sale agreements with Fannie Mae. These additional agreements allow OITRS to accelerate the sale of its mortgage loan inventory, resulting in a more effective use of its warehouse facilities. OITRS has a combined capacity of \$100.0 million under these purchase and sale agreements. There were \$16.2 million sold and being held under these agreements as of June 30, 2007. The agreements are not committed facilities and may be terminated at the discretion of either party.

The facilities are secured by mortgage loans and other assets of OITRS. The facilities generally contain various covenants pertaining to tangible net worth, net income, available cash and liquidity, leverage ratio, and servicing delinquency. As of June 30, 2007, OITRS was not in compliance with respect to four covenants pertaining to tangible net worth, available cash and liquidity, debt to tangible net worth and profitability with one lender and the Company was not in compliance pertaining to tangible net worth with the same lender and one other lender. OITRS and the Company have obtained waivers from each lender for the covenant violations. However, OITRS may violate such covenants again in the future. In the event the violations occur, OITRS may be unable to obtain waivers. In the event waivers are not obtained, OITRS would be in default under the terms of the agreements. In the event OITRS defaulted under the terms of the agreement, the lenders could force OITRS to liquidate the mortgage loans collateralizing the loan, seek payment from the Company as guarantor, or force OITRS into an involuntary bankruptcy.

As of July 31, 2007 the outstanding balance on the JP Morgan committed warehouse line and the uncommitted purchase agreement with Colonial Bank have matured and their outstanding balances are paid in full.

(h) – Other Secured Borrowings

Other secured borrowings consisted of the following as of June 30, 2007 and December 31, 2006:

(in thousands)

	June 30, 2007	December 31, 2006
A committed warehouse line of credit between OITRS and JP Morgan Chase, that allows	\$ 20,048	\$ 71,657

for a sublimit for Originated Mortgage Servicing Rights. The agreement was extended until July 31, 2007 and the limit reduced in stages, initially to \$75.0 million through June 30, 2007 and \$20.0 million through July 31, 2007. The agreement was further extended until September 28, 2007. The agreement provides for interest rate based on LIBOR plus 1.50% to 1.85% depending on collateral type.

Citigroup Global Realty Inc., working capital line of credit for \$80.0 million secured by the retained interests in securitizations through OMAC 2006-2. The facility expires on December 20, 2007. The agreement provides for interest rate based on LIBOR plus 1.00%.

	39,772	50,320
\$	<u>59,820</u>	<u>121,977</u>

(i) - Income taxes

As previously described, Opteum acquired OITRS on November 3, 2005, and OITRS is a taxpaying entity for income tax purposes and is taxed separately from Opteum. Therefore, OITRS separately reports an income tax provision or benefit based on its own taxable activities.

The income tax provision for the six and three months ended June 30, 2007 differs from the amount determined by applying the statutory Federal rate of 35% to the pre-tax loss due primarily to the recording of deferred tax asset valuation allowances. OITRS recorded a deferred tax asset valuation allowance of approximately \$37.4 million during the three month period ended March 31, 2007; there was no allowance recorded previously. At December 31, 2006, OITRS had recorded net deferred tax assets of approximately \$7.1 million. The recording of the valuation allowance (among other items) during the three months ended March 31, 2007 resulted in OITRS recording an income tax provision of \$11.5 million, and reduced the December 31, 2006 net deferred tax asset to a net deferred tax liability at March 31, 2007 of approximately \$4.3 million. The net deferred tax assets generated during the three months ended June 30, 2007, primarily created by the net operating loss during the period, are offset in their entirety by a deferred tax asset valuation allowance; therefore, there is no provision or benefit for income taxes during this period, and there is no change in the net deferred tax liability at June 30, 2007. The amount of the gross tax benefit and the corresponding offsetting valuation allowance is \$31.3 million for the three months ended June 30, 2007.

The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income within OITRS. Management considers the scheduled reversal of deferred tax liabilities, projected future taxable income, and tax planning strategies in making this assessment, including the impacts of the closing of the OITRS wholesale and conduit mortgage loan origination channels, the sale of the retail mortgage loan origination channel, and other actions related to the operations of OITRS. At this time, management believes it is more likely than not that the Company will not realize the full benefits of the federal tax loss carryforwards, and that the Company will not realize any benefit of the state tax loss carryforwards and the other deferred tax assets. Therefore, the Company has recorded a valuation allowance against certain deferred tax assets during 2007. As of June 30, 2007, OITRS has an estimated federal tax net operating loss carryforward of approximately \$200.0 million, which begins to expire in 2025, and is fully available to offset future taxable income.

The effective income tax benefit for the six and three months ended June 30, 2006 differs from the amount determined by applying the statutory Federal rate of 35% to the pre-tax loss due primarily to permanent differences, the state tax benefit (net of the Federal tax effect) and valuation allowance.

(j) - Transactions With a Related Party

During the six and three months ended June 30, 2007, OITRS received aggregate payments of \$0.4 million and \$0.0 million, respectively, from Southstar Funding, LLC ("Southstar Funding") primarily in exchange for the performance of certain interim loan servicing functions. Southstar Funding is fifty percent owned by Southstar Partners, LLC ("Southstar Partners"). Certain former officers of OITRS, one of whom is also a former director of Opteum, own membership interests in Southstar Partners. In addition, a former officer of OITRS as well as a former director of Opteum serves on the Board of Managers of Southstar Funding. As of June 30, 2007, there were no amounts due from or owed to Southstar Partners or Southstar Funding. Amounts paid for interim loan servicing were determined on an arms-length basis and are comparable to amounts charged to other, non-related parties. On April 11, 2007, Southstar Funding filed a voluntary petition under Chapter 7 of the U.S. Bankruptcy Code.

(k) - Loans Sold to Investors. Generally, OITRS is not exposed to significant credit risk on its loans sold to investors. In the normal course of business, OITRS provides certain representations and warranties during the sale of mortgage loans which obligate it to repurchase loans which are subsequently unable to be sold through the normal investor channels. The repurchased loans are secured by the related real estate properties, and can usually be sold directly to other permanent investors. There can be no assurance, however, that OITRS will be able to recover the repurchased loan value either through other investor channels or through the assumption of the secured real estate.

OITRS recognizes a liability for the estimated fair value of this obligation at the inception of each mortgage loan sale based on the anticipated repurchase levels and historical experience. The liability is recorded as a reduction of the gain on sale of mortgage loans and included as part of other liabilities in the accompanying financial statements.

Changes in the liability during the six months ended June 30, 2007 and 2006:

(in thousands)

	Six Months Ended	
	June 30, 2007	June 30, 2006
Balance—Beginning of period	\$ 7,136	\$ 2,038
Provision	16,010	1,567
Charge-Offs	<u>(10,492)</u>	<u>(896)</u>
Balance—End of period	<u>\$ 12,654</u>	<u>\$ 2,709</u>

(l) - Net Worth Requirements. OITRS is required to maintain certain specified levels of minimum net worth to maintain its approved status with Fannie Mae, HUD, and other investors. As of June 30, 2007, the highest minimum net worth requirement applicable to OITRS was approximately \$0.3 million.

OITRS had negative net worth of approximately (\$60.3) million as of June 30, 2007. Subject to the approval of Opteum's Board of Directors, Opteum may forgive inter-company debt in order to restore the net worth of OITRS to an amount in excess of the required minimum.

(m) - Outstanding Litigation. The Company is involved in various lawsuits and claims, both actual and potential, including some that it has asserted against others, in which monetary and other damages are sought. These lawsuits and claims relate primarily to contractual disputes arising out of the ordinary course of the Company's business. The outcome of such lawsuits and claims is inherently unpredictable. However, management believes that, in the aggregate, the outcome of all lawsuits and claims involving the Company will not have a material effect on the Company's consolidated financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

Forward-Looking Statements

When used in this Quarterly Report on Form 10-Q, in future filings with the Securities and Exchange Commission (the "Commission") or in press releases or other written or oral communications, statements which are not historical in nature, including those containing words such as "anticipate," "estimate," "should," "expect," "believe," "intend" and similar expressions, are intended to identify "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act"), and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act").

These forward-looking statements are subject to various risks and uncertainties, including, but not limited to, those described or incorporated by reference in Part II – Item 1A – Risk Factors of this Form 10-Q. These and other risks, uncertainties and factors, including those described in reports that the Company files from time to time with the Commission, could cause the Company's actual results to differ materially from those reflected in such forward-looking statements. All forward-looking statements speak only as of the date they are made and the Company does not undertake, and specifically disclaims, any obligation to update or revise any forward-looking statements to reflect events or circumstances occurring after the date of such statements.

The following discussion of the Company's financial condition and results of operations should be read in conjunction with the consolidated financial statements and related notes included elsewhere in this report.

Introduction

As used in this document, discussions related to "Opteum," the parent company, the registrant, and to real estate investment trust ("REIT") qualifying activities or the general management of Opteum's portfolio of mortgage backed securities ("MBS") refer to "Opteum Inc." Further, discussions related to Opteum's taxable REIT subsidiary or non-REIT eligible assets refer to Opteum Financial Services, LLC and its consolidated subsidiaries. This entity, which was previously referred to as "OFS," was renamed Orchid Island TRS, LLC effective July 3, 2007. Hereinafter, any historical mention, discussion or references to Opteum Financial Services, LLC or to OFS (such as in previously filed documents or Exhibits) now means Orchid Island TRS, LLC or "OITRS." Discussions relating to the "Company" refer to the consolidated entity (the combination of Opteum and OITRS). The assets and activities that are not REIT eligible, such as mortgage origination, acquisition and servicing activities, are conducted by OITRS.

Opteum Inc., formerly Bimini Mortgage Management, Inc., was formed in September 2003 to invest primarily in but not limited to, residential mortgage related securities issued by the Federal National Mortgage Association (more commonly known as Fannie Mae), the Federal Home Loan Mortgage Corporation (more commonly known as Freddie Mac) and the Government National Mortgage Association (more commonly known as Ginnie Mae). Opteum attempts to earn a return on the spread between the yield on its assets and its costs, including the interest expense on the funds it borrows. It generally intends to borrow between eight and twelve times the amount of its equity capital in an attempt to enhance its returns to stockholders. This leverage may be adjusted above or below this range to the extent management or the Company's Board of Directors deems necessary or appropriate. For purposes of this calculation, Opteum treats its junior subordinated notes as an equity capital equivalent. Opteum is self-managed and self-advised and has elected to be taxed as a REIT for U.S. federal income tax purposes.

On July 25, 2007, OITRS entered into a binding agreement to sell a majority of its remaining private-label and agency mortgage servicing portfolio, which had an aggregate unpaid principal balance of approximately \$3.0 billion as of June 30, 2007. The aggregate sales proceeds will be used to repay debt that is currently secured by OITRS's mortgage servicing portfolio. The transaction, which is subject to various closing conditions, is expected to be completed by September 4, 2007. The transaction is not expected to result in a material gain or loss.

On April 18, 2007, the Board of Managers of OITRS, at the recommendation of the Board of Directors of the Company, approved the closure of the wholesale and conduit mortgage loan origination channels. Both channels ceased accepting new applications for mortgage loans on April 20, 2007. On May 7, 2007, OITRS signed a binding agreement to sell its retail mortgage loan origination channel to a third party as well. On June 30, 2007, OITRS entered into an amendment to this agreement. The proceeds of the transactions were approximately \$1.5 million plus the assumption of certain liabilities of OITRS. The transaction, coupled with the disposal of the conduit and wholesale origination channels, resulted in a loss of approximately \$10.5 million. Going forward, OITRS will not operate a mortgage loan origination business and the results of the mortgage origination business are reported as discontinued operations for the three and six months ended June 30, 2007.

OITRS was acquired by the Company in November 2005. As a result of the merger, OITRS became a wholly-owned taxable REIT subsidiary of Opteum. On December 21, 2006, Opteum sold to Citigroup Global Markets Realty Corp. ("Citigroup Realty") a Class B non-voting limited liability company membership interest in OITRS, representing 7.5% of all of OITRS's outstanding limited liability company membership interests, for \$4.1 million. OITRS is subject to corporate income taxes and files separate federal and state income tax returns.

Dividends to Stockholders

In order to maintain its qualification as a REIT, Opteum is required (among other provisions) to annually distribute dividends to its stockholders in an amount at least equal to, generally, 90% of Opteum's REIT taxable income. REIT taxable income is a term that describes Opteum's operating results calculated in accordance with rules and regulations promulgated pursuant to the Internal Revenue Code.

Opteum's REIT taxable income is computed differently from net income as computed in accordance with generally accepted accounting principles ("GAAP net income"), as reported in the Company's accompanying consolidated financial statements. Depending on the number and size of the various items or transactions being accounted for differently, the differences between REIT taxable income and GAAP net income can be substantial and each item can affect several reporting periods. Generally, these items are timing or temporary differences between years; for example, an item that may be a deduction for GAAP net income in the current year may not be a deduction for REIT taxable income until a later year.

As a REIT, Opteum may be subject to a federal excise tax if Opteum distributes less than 85% of its taxable income by the end of the calendar year. Accordingly, Opteum's dividends are based on its taxable income, as determined for federal income tax purposes, as opposed to its net income computed in accordance with GAAP (as reported in the accompanying consolidated financial statements).

Results of Operations

PERFORMANCE OVERVIEW

Described below are the Company's results of operations for the six and three months ended June 30, 2007, as compared to the Company's results of operations for the six and three months ended June 30, 2006. During the three month period ended June 30, 2007, the Company ceased all mortgage origination business at OITRS. As stated above, result of those operations are reported in the financial statements as discontinued operations. As a result of these actions, the Company's financial statements are not comparable to prior reports filed since the acquisition of OITRS.

Consolidated net loss for the six and three months ended June 30, 2007, was \$240.5 million and \$162.5 million, respectively, compared to a consolidated net loss of \$9.4 million and \$1.4 million, respectively, for the six and three months ended June 30, 2006. Consolidated net loss per basic and diluted share of Class A Common Stock was \$9.67 and \$6.53, respectively, for the six and three months ended June 30, 2007, compared to a consolidated net loss per basic and diluted share of Class A Common Stock of \$0.38 and \$0.06, respectively, for the comparable prior period. The decline in consolidated net loss was driven primarily by a permanent impairment taken on MBS securities in the Company's MBS portfolio, continued poor operating results of OITRS and declines in the value of the retained interest in securitization, also at OITRS.

For the three months ended June 30, 2007, the Company no longer has the ability and intent to hold until recovery MBS securities whose values are impaired as of June 30, 2007. Accordingly, due to liquidity and working capital needs brought about by the turmoil in the mortgage market, the Company no longer had the ability to hold such assets until their amortized cost could be fully recovered. During the three months ended June 30, 2007, the Company sold securities with a market value at the time of sale of approximately \$782.0 million that were impaired at the time of sale, realizing losses on sale of \$18.6 million. The Company recorded \$55.3 million of permanent impairments on the remaining \$1.8 billion of MBS securities held as available-for-sale at June 30, 2007. As a result of these actions the Company's net interest margin (or NIM) on its portfolio of MBS securities increased to 86 basis points as of June 30, 2007. The NIM measures the spread, in basis points, between the weighted average yield on the MBS portfolio and the weighted average borrowing costs on the repo liabilities. This figure does not incorporate the effect of other sources of interest income or expense nor overhead expenses.

For the six and three months ended June 30, 2007, comprehensive (loss) was (\$163.8) million and (\$89.7) million, respectively, including the net unrealized gain/(loss) on available-for-sale securities of \$2.1 million and (\$1.0) million and the reclassification at June 30, 2007 of the other-than-temporary loss on MBS of \$55.3 million. For the six and three months ended June 30, 2007, reclassification of realized loss on mortgage-backed securities sales of \$19.4 million and \$18.6 million were made to reflect the realized loss on sales of assets previously reflected in comprehensive loss as unrealized losses on available for sale securities. For the six and three months ended June 30, 2006, comprehensive (loss) was (\$43.3) million and (\$23.9) million, respectively, including the net unrealized loss on available-for-sale securities of (\$33.9) million and (\$22.5) million, respectively. The factors resulting in the unrealized loss on available-for-sale securities are described below.

Comprehensive (loss) is as follows:

(in thousands)

	Six Month Ended		Three Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006
Net (loss)	\$ (240,537)	\$ (9,367)	\$ (162,467)	\$ (1,395)
Reclassify net realized loss on MBS	19,388	-	18,568	-
Reclassify other-than-temporary loss on MBS	55,250	-	55,250	-
Unrealized gain (loss) on available-for-sale securities, net	2,135	(33,897)	(1,043)	(22,472)
Comprehensive (loss)	\$ (163,764)	\$ (43,264)	\$ (89,692)	\$ (23,867)

Unrealized gains/(losses) on available-for-sale securities is a component of accumulated other comprehensive loss, which is included in stockholders' equity on the consolidated balance sheet. Accumulated other comprehensive loss is the difference between the fair market value of the portfolio of MBS securities and their cost basis. The unrealized gain on available-for-sale securities for the six months ended June 30, 2007 was driven by a combination of a decrease in short term rates for the period, which tends to increase the fair market value of the Company's portfolio of MBS securities, and increased amortization of net premium for the period, which lowers the cost basis in the portfolio of MBS securities. The increased amortization for the period was the result of the continued upward resetting of ARM securities in the portfolio, which results in higher coupons on the securities relative to their booked yields, and therefore greater amortization.

The Company has negative retained earnings (titled "Accumulated deficit" in the stockholders' equity section of the accompanying consolidated financial statements) as of June 30, 2007, partially because of the consequences of Opteum's tax qualification as a REIT. As is more fully described in the "Dividends to Stockholders" section above, Opteum's dividends are based on its REIT taxable income, as determined for federal income tax purposes, and not on its net income computed in accordance with GAAP (as reported in the accompanying consolidated financial statements).

For the six months ended June 30, 2007, Opteum's REIT taxable loss was approximately \$76.1 million less than Opteum's net loss from REIT activities computed in accordance with GAAP. The most significant difference was the impairment taken on available-for-sale securities which is reflected in GAAP earnings but not for REIT tax purposes. If such securities are eventually sold and realized losses incurred, a substantial portion of this difference would be eliminated. Another contributor is attributable to interest on inter-company loans with OITRS as well as timing differences in the recognition of compensation expense attributable to phantom stock awards. In April of 2007, the Board of Directors of the Company approved the forgiveness of up to \$108.3 million of inter-company debt with OITRS. Such action will reduce future interest income associated with the inter-company debt. With respect to the phantom stock awards, the future deduction of this temporary difference is uncertain as to the amount (the amount of the tax impact is measured at the fair value of the shares as of a future date and this amount may be greater than or less than the financial statement deduction already taken by Opteum). Since inception through June 30, 2007, Opteum's taxable income is approximately \$91.0 million greater than Opteum's financial statement net income as computed in accordance with GAAP. For the six months ended June 30, 2007, tax capital losses of approximately \$29.4 million were realized; these capital losses are only available to the REIT to offset future capital gains and therefore they do not reduce REIT taxable income.

PERFORMANCE OF OPTEUM'S MBS PORTFOLIO

For the six and three months ended June 30, 2007, the REIT generated (\$9.5) million and (\$8.2) million of net interest income (loss). Included in these results were \$65.8 million and \$27.5 million of interest income, offset by \$75.3 million and \$35.7 million of interest expense. Inclusive in these results is the quarterly retrospective adjustment of (\$4.4) million and (\$6.2) million for the six and three month period ended June 30, 2007. The retrospective adjustment is described below under Critical Accounting Policies/Income Recognition. Net interest income is down approximately \$21.6 million and \$19.2 million, respectively, compared to the six and three months ended June 30, 2006. The decline is mostly the result of the approximately 46.6% reduction in the MBS investment portfolio.

For the six and three months ended June 30, 2007, the REIT's general and administrative costs were \$3.7 million and \$1.9 million, respectively. For the six and three months ended June 30, 2006, the REIT's general and administrative costs were \$5.2 million and \$3.0 million, respectively. The decrease in general and administrative expenses was primarily the result of a reduction in employee bonus accruals. Operating expenses, which incorporate trading costs, fees and other direct costs, were \$0.5 million and \$0.2 million, for the six and three months ended June 30, 2007 and \$0.5 million and \$0.2 million for the six and three months ended June 30, 2006, respectively.

As stated above, the REIT recorded permanent impairment charges to various MBS securities at June 30, 2007. In addition, certain securities were sold that were impaired at the time of sale. As a result, the REIT had \$19.4 million and \$18.6 million, respectively, in losses from the sale of securities in the MBS portfolio during the six and three months ended June 30, 2007. For the six and three months ended June 30, 2006, Opteum reported no gains/loss from the sale of MBS.

As of June 30, 2007, Opteum's MBS portfolio consisted of \$1.8 billion of agency or government MBS at fair value and had a weighted average yield on assets of 6.10% and a net weighted average borrowing cost of 5.24%. The following tables summarize Opteum's agency and government mortgage related securities as of June 30, 2007:

Asset Category	Market Value (in thousands)	Percentage of Entire Portfolio	Weighted Average Coupon	Weighted Average Maturity in Months	Longest Maturity	Weighted Average Coupon Reset in Months	Weighted Average Lifetime Cap	Weighted Average Periodic Cap
Adjustable-Rate MBS	\$ 1,171,277	64.40%	5.42%	318	1-Apr-44	4.95	9.85%	1.74%
Fixed-Rate MBS	\$ 433,500	23.84%	6.64%	241	1-Jan-37	n/a	n/a	n/a
Hybrid Adjustable-Rate MBS	\$ 213,859	11.76%	4.40%	336	1-May-36	13.87	9.91%	2.04%
Total Portfolio	\$ 1,818,636	100.00%	5.59%	302	1-Apr-44	6.32	9.86%	1.79%

Agency	Market Value (in thousands)	Percentage of Entire Portfolio
Fannie Mae	\$ 1,413,319	77.71%
Freddie Mac	107,250	5.90%
Ginnie Mae	298,067	16.39%
Total Portfolio	\$ 1,818,636	100.00%

Entire Portfolio	
Effective Duration (1)	1.36
Weighted Average Purchase Price	\$ 102.31
Weighted Average Current Price	\$ 100.95

(1) Effective duration of 1.36 indicates that an interest rate increase of 1% would be expected to cause a 1.36% decline in the value of the MBS in the Company's investment portfolio.

In evaluating Opteum's MBS portfolio assets and their performance, Opteum's management team primarily evaluates these critical factors: asset performance in differing interest rate environments, duration of the security, yield to maturity, potential for prepayment of principal and the market price of the investment.

Opteum's portfolio of MBS will typically be comprised of adjustable-rate MBS, fixed-rate MBS, hybrid adjustable-rate MBS and balloon maturity MBS. Opteum seeks to acquire low duration assets that offer high levels of protection from mortgage prepayments. Although the duration of an individual asset can change as a result of changes in interest rates, Opteum strives to maintain a portfolio with an effective duration of less than 2.0. The stated contractual final maturity of the mortgage loans underlying Opteum's portfolio of MBS generally ranges up to 30 years. However, the effect of prepayments of the underlying mortgage loans tends to shorten the resulting cash flows from Opteum's investments substantially. Prepayments occur for various reasons, including refinancing of underlying mortgages and loan payoffs in connection with home sales.

Prepayments on the loans underlying Opteum's MBS can alter the timing of the cash flows from the underlying loans to the Company. As a result, Opteum gauges the interest rate sensitivity of its assets by measuring their effective duration. While modified duration measures the price sensitivity of a bond to movements in interest rates, effective duration captures both the movement in interest rates and the fact that cash flows to a mortgage related security are altered when interest rates move. Accordingly, when the contract interest rate on a mortgage loan is substantially above prevailing interest rates in the market, the effective duration of securities collateralized by such loans can be quite low because of expected prepayments. Although some of the fixed-rate MBS in Opteum's portfolio are collateralized by loans with a lower propensity to prepay when the contract rate is above prevailing rates, their price movements track securities with like contract rates and therefore exhibit similar effective duration.

As of June 30, 2007, approximately 64.4% of the REIT portfolio is comprised of short duration ARM securities. The REIT favors such securities since they offer attractive yields relative to alternative securities in an inverted yield curve environment such as the one the Company has been operating in recently. Going forward, to the extent the shape of the yield curve is less or not inverted, the composition of the portfolio may be changed to better take advantage of opportunities in the market at that time.

The value of the REIT's MBS portfolio changes as interest rates rise or fall. Opteum faces the risk that the market value of its assets will increase or decrease at different rates than that of its liabilities, including its hedging instruments. Opteum primarily assesses its interest rate risk by estimating the duration of its assets and the duration of its liabilities. Duration essentially measures the market price volatility of financial instruments as interest rates change. Opteum generally calculates duration using various financial models and empirical data and different models and methodologies can produce different duration numbers for the same securities.

The following sensitivity analysis shows the estimated impact on the fair value of Opteum's interest rate-sensitive investments as of June 30, 2007, assuming rates instantaneously fall 100 basis points, rise 100 basis points and rise 200 basis points:

(in thousands)

	Interest Rates Fall 100 Basis Points	Interest Rates Rise 100 Basis Points	Interest Rates Rise 200 Basis Points
Adjustable-Rate MBS			
(Fair Value \$1,171,277)			
Change in fair value	\$ 8,610	\$ (8,610)	\$ (17,220)

(Fair Value \$41,903)			
Portfolio Total			
(Fair Value \$1,818,636)			
Change in fair value	\$ 17,263	\$ (31,184)	\$ (73,385)
Change as a percent of fair value	0.95%	(1.71%)	(4.04%)

In addition to changes in interest rates, other factors impact the fair value of Opteum's interest rate-sensitive investments and hedging instruments, such as the shape of the yield curve, market expectations as to future interest rate changes and other market conditions. Accordingly, in the event of changes in actual interest rates, the change in the fair value of Opteum's assets would likely differ from that shown above and such difference might be material and adverse to Opteum's stockholders.

For reference, the table below shows the principal balance of Opteum's investment securities, the net unamortized premium, amortized cost of securities held, average cost expressed as a price, the fair market value of investments and the fair market value expressed as a price for the current quarter and each of the previous nine quarters for the portfolio of MBS securities only. The data in the table below does not include information pertaining to discontinued operations at OITRS.

(in thousands)

Quarter Ended	Principal Balance of Investment Securities Held	Unamortized Premium (Net)	Amortized Cost of Securities Held	Amortized Cost/Principal Balance Held	Fair Market Value of Investment Securities Held	Fair Market Value/Principal Balance Held
At June 30, 2007	\$ 1,801,492	\$ 17,144	\$ 1,818,636	100.95	\$ 1,818,636	100.95

At June 30, 2005	3,784,668	114,673	3,899,341	103.03	3,876,206	102.42
At March 31, 2005	3,212,517	109,390	3,321,907	103.41	3,299,052	102.69

The table below shows Opteum's average investments held, total interest income, yield on average earning assets, average repurchase obligations outstanding, interest expense, average cost of funds, net interest income and net interest spread for the quarter ended June 30, 2007, and the nine previous quarters for Opteum's portfolio of MBS securities only. The data in the table below does not include information pertaining to discontinued operations at OITRS. Indicated in the table below, net interest spread declined during the second quarter of 2007 to (1.04%) from 0.36% in the first quarter of 2007. Excluding the quarterly retrospective adjustment, the net interest margin declined from 0.11% in the first quarter of 2007 to 0.00% in the second quarter of 2007.

For the three months ended June 30, 2007, (\$6.2) million of the \$29.0 million of interest income was attributable to the quarterly retrospective adjustment. As a result of the retrospective adjustment, the yield on average interest earning assets for the period was reduced by 104.1 basis points to 488.5 basis points. For the three months ended June 30, 2006, \$13.4 million of the \$57.0 million of interest income was derived from the quarterly retrospective adjustment. The adjustment represented 154.3 basis points of the 656.8 basis points of the yield on average interest earning assets.

PERFORMANCE OF DISCONTINUED OPERATIONS OF OITRS

As stated above, the Company has sold or discontinued all residential mortgage origination activities at OITRS. Going forward, all reported financial results will reflect this decision. The principal business activities of OITRS were the origination and sale of mortgage loans. In addition, as part of the securitization of loans sold, OITRS retained an interest in the resulting residual interest cash flows more fully described below. Finally, OITRS serviced the loans securitized as well as some loans sold on a whole loan basis.

As of June 30, 2007, OITRS owned \$93.5 million of mortgage loans net of deferred origination costs, mark to market and other adjustments which were classified as mortgage loans held for sale. Gains/(losses) realized on the mortgage banking activities for the six and three months ended June 30, 2007, were (\$61.8) million and (\$43.9) million, respectively, and for the six and three months ended June 30, 2006, were (\$2.9) million and (\$5.9) million, respectively. These gains/(losses) reflect the effects of the mark to market of IRLCs and loans held for sale prior to the sale date of (\$9.3) million and \$4.8 million, respectively, for the six and three months ended June 30, 2007, and were (\$4.9) million and (\$0.8) million, respectively, for the six and three months ended June 30, 2006. OITRS's gains/(losses) from mortgage banking activities were the result of a sharp deterioration in the secondary market for the loans OITRS originates and sells. Owing to fears related to the credit performance of certain types of loans OITRS originated, namely high combined loan to value ("CLTV") and second lien mortgages, prices obtained upon sale were depressed and OITRS also experienced elevated levels of early payment defaults (EPDs), resulting in OITRS recording high loan loss reserves.

Gains/(losses) from mortgage banking activities include changes in the fair value of retained interests in securitizations and the associated hedge gains or losses. Excluding changes in fair value of retained interests in securitizations net of hedge gains and losses, OITRS had gains/(losses) from sales of mortgages held for sale of (\$29.6) million and (\$17.6) million, respectively, for the six and three months ended June 30, 2007, and \$19.1 million and \$15.2 million, respectively, for the six and three months ended June 30, 2006.

The retained interests in securitizations represent residual interests in loans originated or purchased by OITRS prior to securitization. The total fair market value of these retained interests was approximately \$73.8 million as of June 30, 2007. Fluctuations in value of retained interests are primarily driven by projections of future interest rates (the forward LIBOR curve), the discount rate used to determine the present value of the residual cash flows and prepayment and loss estimates on the underlying mortgage loans. Due to higher forward LIBOR rates, the market value of the retained interests decreased by \$27.5 million and \$26.2 million, respectively, for the six and three months ended June 30, 2007 and decreased by \$24.5 million and \$20.2 million, respectively, for the six and three months ended June 30, 2006.

The table below provides details of OITRS's (loss) on mortgage banking activities for the six and three months ended June 30, 2007 and 2006. OITRS recognizes a gain or loss on sale of mortgages held for sale only when the loans are actually sold.

(LOSSES) ON MORTGAGE BANKING ACTIVITIES

(in thousands)

	Six Months Ended		Three Months Ended	
	June 30, 2007	June 30, 2006	June 30, 2007	June 30, 2006

Net gain/(loss) on sale of mortgage loans	\$ (52,491)	\$ 2,008	\$ (48,605)	\$ (5,069)
Change in market value of IRLCs	\$ 14	\$ (809)	\$ (190)	\$ 2,935
Change in market value mortgage loans for held for sale	\$ (9,338)	\$ (4,080)	\$ 4,940	\$ (3,744)
(Loss) on mortgage banking activities	\$ (61,815)	\$ (2,881)	\$ (43,855)	\$ (5,878)

For the six and three months ended June 30, 2007 and 2006, OITRS originated mortgage loans of \$1.5 billion and \$0.4 billion, and \$2.8 billion and \$1.5 billion, respectively. For the six and three months ended June 30, 2007, OITRS sold \$2.0 billion and \$0.7 billion of originated mortgage loans. For the six and three months ended June 30, 2006, OITRS sold \$2.7 billion and \$1.3 billion of originated mortgage loans. Of the originated mortgage loans sold during the six and three months ended June 30, 2007, \$0.8 billion of the \$2.0 billion and \$0.3 billion of the \$0.7 billion, respectively, were sold on a servicing retained basis. Of the originated mortgage loans sold during the six and three months ended June 30, 2006, \$1.7 billion of the \$2.7 billion and \$0.6 billion of the \$1.3 billion, respectively, were sold on a servicing retained basis.

For the six and three months ended June 30, 2007 and 2006, OITRS had net servicing income/ (loss) of (\$10.6) million and (\$6.0) million, and \$1.8 million and \$3.6 million, respectively. The results for the six and three month periods were driven primarily by negative fair value adjustments to the MSRs (inclusive of run-off of the servicing portfolio) for the six and three months ended June 30, 2007 and the Company's early adoption of SFAS 156 on January 1, 2006 (for the six and three months ended June 30, 2006).

As of June 30, 2007, OITRS held originated MSRs on approximately \$3.6 billion in mortgages with a fair market value of approximately \$32.1 million. For the six and three months ended June 30, 2007 and 2006, additions to the MSRs were \$7.7 million and \$2.4 million, and \$17.1 million and \$6.1 million, respectively. In turn, the net fair value adjustments for the six and three months ended June 30, 2007, reflect declines in fair value due to run-off of (\$6.0) million and (\$1.4) million and adjustments due to (decreases)/increases in fair value of (\$6.3) million and (\$1.3) million, respectively. The net fair value adjustments for the six and three months ended June 30, 2006, reflect declines in fair value due to run-off of (\$10.4) million and (\$4.9) million and adjustments due to (decreases)/increases in fair value of (\$0.4) million and \$2.1 million, respectively. Changes in valuation assumptions for the six and three months ended June 30, 2007, reduced the fair market value by \$4.6 million and \$2.1 million, respectively. Changes in valuation assumptions and early adoption of SFAS 156 in January of 2006 increased fair market value for the six months ended June 30, 2006, by \$3.2 million. There were no such changes for the three months ended June 30, 2006.

Liquidity and Capital Resources

As of June 30, 2007, Opteum had master repurchase agreements in place with 19 counterparties and had outstanding balances under 10 of these agreements. None of the counterparties to these agreements are affiliates of Opteum. These agreements are secured by Opteum's MBS and bear interest rates that are based on a spread to LIBOR.

As of June 30, 2007, Opteum had obligations outstanding under its repurchase agreements totaling \$1.8 billion with a net weighted average borrowing cost of 5.24%. All of Opteum's outstanding repurchase agreement obligations are due in less than 15 months with \$0.8 billion maturing between two and 30 days, \$0.5 billion maturing between 31 and 90 days and \$0.5 billion maturing in more than 90 days. Securing these repurchase agreement obligations as of June 30, 2007, were MBS with an estimated fair value of \$1.8 billion and a weighted average maturity of 302 months.

As of June 30, 2007, Opteum's repurchase agreements had the following counterparties, amounts outstanding, amounts-at-risk and weighted average remaining maturities:

(in thousands)

Repurchase Agreement Counterparties	Amount Outstanding	Amount at Risk(1)	Weighted Average	Percent of Total Amount Outstanding
			Maturity of Repurchase Agreements in Days	
Deutsche Bank Securities, Inc.	\$ 785,347	\$ 10,232	118	44.04 %
JP Morgan Securities Inc.	646,699	16,211	183	36.26

Bear, Stearns & Co. Inc.	4,637	154	6	0.26

Total	\$	<u>1,783,331</u>	\$	<u>34,385</u>	<u>100.00</u>	%
-------	----	------------------	----	---------------	---------------	---

- (1) Equal to the fair value of securities sold, plus accrued interest income, minus the sum of repurchase agreement liabilities, plus accrued interest expense.

Opteum's master repurchase agreements have no stated expiration, but can be terminated at any time at Opteum's option or at the option of the counterparty. However, once a definitive repurchase agreement under a master repurchase agreement has been entered into, it generally may not be terminated by either party. A negotiated termination can occur, but may involve a fee to be paid by the party seeking to terminate the repurchase agreement transaction.

Opteum has entered into contracts and paid commitment fees to three counterparties providing for an aggregate of \$0.75 billion in committed repurchase agreement facilities at pre-determined borrowing rates and haircuts for a 364 day period following the commencement date of each contract. The facilities capacity and expiration dates are as follows: \$450.0 million on October 17, 2007 and \$300 million on April 23, 2008. Opteum has no obligation to utilize these repurchase agreement facilities.

In addition, two of the agreements described above are available to provide financing for up to \$150 million to cover margin requirements associated with monthly principal payments on the MBS portfolio.

It is the Company's present intention to seek to renew its various committed and uncommitted repurchase agreements as they become due or expire. However, market conditions could change making the renewal of these contractual arrangements more expensive or unattainable. Further, as discussed above, increases in short-term interest rates could negatively impact the valuation of Opteum's MBS portfolio. Should this occur, Opteum's ability to enter into new repurchase agreements or extend its existing repurchase agreements could be limited and may cause Opteum's repurchase agreement counterparties to initiate margin calls. Under this scenario, Opteum would likely seek alternative sources of financing which could include additional debt or equity financing or sales of assets.

Given the current turmoil in the mortgage market, such alternative sources of financing are not readily available to the Company. Further, as a result of the turmoil in the mortgage market, cash needs of OITRS were increased. The increased needs stemmed from margin calls on the various warehouse lines and depressed levels on loan sales. The Company, as guarantor, is potentially exposed to cash needs connected to OITRS's warehouse lines to the extent OITRS has insufficient funds to meet margin calls or repay borrowings. Accordingly, during the three month period ended June 30, 2007, the Company undertook a series of assets sales intended to raise funds necessary to support the operations of OITRS and maintain adequate liquidity during the disruptions in the mortgage market that occurred and are continuing.

The Company has obtained committed funding arrangements that provide specified advance rates and funding levels and are available to finance our MBS portfolio. Should our financing be withdrawn and our committed funding agreements not be sufficient to finance all of our MBS investments, we may be forced to sell such assets, which may result in losses upon such sales. While the financing in place for our retained interests, trading held by OITRS is committed through December 20, 2007, the lender on the financing facility has and may continue to request additional margin be posted in connection with the facility. If we are unable to meet such requests in the future, we may be forced to sell the assets or seek alternative financing. At present, such alternative financing arrangements for the residual interests, trading may not be available or only available at substantially higher cost to OITRS. If cash resources are, at any time, insufficient to satisfy the Company's liquidity requirements, such as when cash flow from operations were materially negative, the Company may be required to pledge additional assets to meet margin calls, liquidate assets, sell additional debt or equity securities or pursue other financing alternatives. Any sale of mortgage-related securities or other assets held for sale at prices lower than the carrying value of such assets would reduce our income. The Company presently believes that its equity and junior subordinated debt capital, combined with the cash flow from operations and the utilization of borrowings, will be sufficient to enable the Company to meet its anticipated liquidity requirements. Continued disruptions in market conditions could, however, adversely affect the Company's liquidity, including the lack of available financing for our MBS assets beyond the capacity of our committed facilities (currently \$0.75 billion), increases in interest rates, increases in prepayment rates substantially above expectations and decreases in value of assets held for sale. Therefore, no assurances can be made regarding the Company's ability to satisfy its liquidity and working capital requirements.

In May 2005, Opteum completed a private offering of \$51.6 million of trust preferred securities of Bimini Capital Trust I ("BCTI") resulting in the issuance by Opteum of \$51.6 million of junior subordinated notes. The interest rate payable by Opteum on the BCTI junior subordinated notes is fixed for the first five years at 7.61% and then floats at a spread of 3.30% over three-month LIBOR for the remaining 25 years. However, the BCTI junior subordinated notes and the corresponding BCTI trust preferred securities are redeemable at Opteum's option at the end of the first five year period and at any subsequent date that Opteum chooses.

In addition, in October 2005, Opteum completed a private offering of an additional \$51.5 million of trust preferred securities of Bimini Capital Trust II ("BCTII") resulting in the issuance by Opteum of an additional \$51.5 million of junior subordinated notes. The interest rate on the BCTII junior subordinated notes and the corresponding BCTII trust preferred securities is fixed for the first five years at 7.8575% and then floats at a spread of 3.50% over three-month LIBOR for the remaining 25 years. However, the BCTII junior subordinated notes and the corresponding BCTII trust preferred securities are redeemable at Opteum's option at the end of the first five year period and at any subsequent date that Opteum chooses.

Opteum attempts to ensure that the income generated from available investment opportunities, when the use of leverage is employed for the purchase of assets, exceeds the cost of its borrowings. However, the issuance of debt at a fixed rate for any long-term period, considering the use of leverage, could create an interest rate mismatch if Opteum is not able to invest at yields that exceed the interest rates of the Company's junior subordinated notes and other borrowings.

LIQUIDITY AND CAPITAL RESOURCES OF THE DISCONTINUED OPERATIONS OF OITRS

In order to facilitate the sale of the remaining residential mortgage loans held for sale at June 30, 2007, OITRS has various warehouse and aggregation lines of credit available, some of which are committed facilities while others are uncommitted. As of July 1, 2007 OITRS had an aggregation line of \$300 million, an uncommitted warehouse line of \$30 million and a committed warehouse line of \$50 million. In addition, OITRS had a \$80 million committed line of credit secured by OITRS's retained interests in securitizations and the ability to utilize \$20 million of the committed warehouse line mentioned above to finance originated mortgage servicing rights. The ability to utilize the committed warehouse line to finance originated mortgage servicing rights matures September 28, 2007. The balance of the \$50 million committed warehouse line and the \$30 million uncommitted warehouse line matured July 31, 2007. On August 9, 2007, the \$300 million aggregation line was further amended and the limit was reduced to \$40 million. At the time the capacity of the facility was reduced, the outstanding balance was \$12.6 million.

The committed and uncommitted warehouse and aggregation facilities are secured by mortgage loans and other assets of OITRS. The facilities generally contain various covenants pertaining to tangible net worth, available cash and liquidity, leverage ratio, and servicing delinquency. As of June 30, 2007, OITRS was not in compliance with respect to four covenants pertaining to tangible net worth, available cash and liquidity, debt to tangible net worth and profitability with one lender and the Company was not in compliance pertaining to tangible net worth with the same lender and one other lender. OITRS has obtained waivers from each lender for the covenant violations. In the event waivers are not obtained, OITRS would be in default under the terms of the agreements. In the event OITRS defaulted under the terms of the agreement, the lenders could force OITRS to liquidate the mortgage loans collateralizing the loan, seek payment from the Company as guarantor, or force OITRS into an involuntary bankruptcy. In the event the Company were required to perform under its duties as guarantor, the Company's liquidity would be constrained or it may not be able to satisfy such obligations. In such event, this would also constitute an event of default under the terms of the agreement and the lenders would have the same remedies available to them as above.

As of June 30, 2007, OITRS had outstanding balances of approximately \$89.3 million under their various warehouse and aggregation lines and approximately \$59.8 million outstanding on other lines of credit with various lenders. The rates on these borrowings generally are based on a spread to LIBOR.

The Company believes that its committed and uncommitted warehouse and aggregation lines are sufficient to support the liquidation of OITRS's remaining residential mortgage loans held for sale.

OITRS has commitments to sell mortgage loans to third parties. As of June 30, 2007, OITRS had outstanding commitments to sell loans of approximately \$50.8 million.

Outlook

As discussed above, the Company's results of operations for the six and three months ended June 30, 2007 continue to be impacted by the prior monetary policy actions of the Federal Reserve whereby their target for the federal funds rate was raised by 425 basis points over a two year period. Initially, the Company repositioned its portfolio of MBS securities in response to the steps taken by the Federal Reserve by significantly increasing the allocation to short resetting ARMs. However, while this protected the portfolio from rising funding costs to some extent, such ARM securities reset upward in coupon less frequently than funding costs and the NIM of the portfolio became negative in late 2006. The NIM of the portfolio was negative for the three month period ended June 30, 2007 as well. As a consequence of the impairment charges taken on available-for-sale securities during the period ended June 30, 2007, the NIM on the Company's portfolio is now positive on a GAAP basis. To the extent the Federal Reserve resumed their tightening policy in the future, there can be no assurance the Company would be able to maintain its positive NIM. In the event the NIM on the Company's portfolio of MBS securities were no longer positive, the results of operations would be negatively impacted.

The funding costs of the MBS portfolio have stabilized and the yield on the MBS assets now exceeds the funding costs through a combination of ARM resetting and as a result of the impairment charge taken. The need to fund negative cash flow operations at OITRS precluded the Company from reinvesting monthly pay-downs throughout much of 2006 and 2007 and thus exacerbated the erosion of the NIM. Going forward, the combination of the ability to reinvest pay-downs on a regular basis, the continued appreciation in yield resulting from ARM resets and the absence of cash flow needs for OITRS should allow the NIM of the MBS portfolio to remain positive. However, the reduced size of the portfolio in relation to our operating expenses will constrain the earnings potential of the Company in the near term.

Developments in the secondary market for Alt-A and, specifically, loans with additional second lien mortgages, had a material negative impact on the results of operations of OITRS. Owing primarily to poor credit performance of such high CLTV residential mortgage loans, especially those originated in late 2006 and early 2007, the secondary market for such loans deteriorated. The poor credit performance of such loans manifested itself in elevated levels of EPDs and significantly depressed prices in the secondary market. As a result, OITRS recorded reserves for loan losses in excess of amounts recorded in earlier periods related to EPDs.

On April 18, 2007, the Board of Managers of OITRS approved the closure of its warehouse and conduit loan origination channels. On June 30, 2007, OITRS sold its retail loan origination channel to a third party. Accordingly, as a result of the closing of the sale of the retail origination channel and the closure of OITRS conduit and wholesale origination channel, OITRS no longer operates a mortgage loan origination business.

During the wind down of the mortgage loan origination operations, OITRS will still need access to a sufficient capacity of warehouse lines of credit to fund the remaining unsold loans in its inventory. In the event such borrowing capacity is reduced or withdrawn before the inventory can be fully liquidated, OITRS may need to seek alternative sources of funding or hold such loans until sold. Further, OITRS has exposure to early payment default claims that have been received from buyers of mortgage loans sold in the past. The settlement of such claims will also need to be funded. The Company believes that adequate reserves have been recorded for such exposure.

Critical Accounting Policies

The Company's financial statements are prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company's significant accounting policies are described in Note 1 to the Company's accompanying Consolidated Financial Statements.

GAAP requires the Company's management to make some complex and subjective decisions and assessments. The Company's most critical accounting policies involve decisions and assessments which could significantly affect reported assets and liabilities, as well as reported revenues and expenses. The Company believes that all of the decisions and assessments upon which its financial statements are based were reasonable at the time made based upon information available to it at that time. Management has identified its most critical accounting policies to be the following:

LONG-LIVED ASSETS

Long-lived assets, including property, plant and equipment and goodwill comprise a significant amount of the Company's total assets. The Company makes judgments and estimates about the carrying value of these assets, including amounts to be capitalized, depreciation methods and useful lives. The Company also reviews these assets for impairment on a periodic basis or whenever events or changes in circumstances indicate that the carrying amounts may not be recoverable. The impairment test consists of a comparison of an asset's fair value with its carrying value; if the carrying value of the asset exceeds its fair value, an impairment loss is recognized in the Consolidated Statement of Operations in an amount equal to that excess. When an asset's fair value is not readily apparent from other sources, management's determination of an asset's fair value requires it to make long-term forecasts of future net cash flows related to the asset. These forecasts require assumptions about future demand, future market conditions and regulatory developments. Significant and unanticipated changes to these assumptions could require a provision for impairment in a future period.

In accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long Lived Assets* (“SFAS 144”), the closure and/or sale of mortgage loan origination channels (discussed in Note 12) required management to test the associated long lived assets for recoverability. In connection with the testing of recoverability of the long lived assets, OITRS recorded an impairment charge of \$8.9 million and \$3.0 million, respectively, for the six and three months ended June 30, 2007. Further, in accordance with SFAS 144, such long lived assets were reported by OITRS as held for use as of March 31, 2007, but these assets are now included in discontinued operations for the remainder of 2007.

GOODWILL AND OTHER INTANGIBLE ASSETS

In accordance with SFAS No. 142, *Goodwill and Other Intangible Assets*, goodwill of a reporting unit (OITRS) and other intangible assets (the “Opteum” trade name) not subject to amortization shall be tested for impairment on an annual basis and between annual tests if an event occurs or circumstances change that indicate the intangible asset might be impaired, which, in the case of goodwill of a reporting unit, is when such event or circumstances would more likely than not reduce the fair value of that reporting unit below its carrying amount. The closure and or sale of the mortgage loan origination channels constituted such an event that would require impairment analyses on the goodwill and other intangibles not subject to amortization. Accordingly, OITRS recorded impairment charges of both goodwill and other intangible assets not subject to amortization of approximately \$3.4 million and \$0.6 million, respectively, for the six and three months ended June 30, 2007.

MORTGAGE BACKED SECURITIES

The Company’s investments in MBS are classified as available-for-sale securities. As a result, changes in fair value are recorded as a balance sheet adjustment to accumulated other comprehensive income (loss), which is a component of stockholders' equity, rather than through the statement of operations. The Company’s MBS have fair values determined by management based on the average of third-party broker quotes received and/or by independent pricing sources when available. Because the price estimates may vary to some degree between sources, management must make certain judgments and assumptions about the appropriate price to use to calculate the fair values for financial reporting purposes. Alternatively, management could opt to have the value of all of its positions in MBS determined by either an independent third-party pricing source or do so internally based on managements own estimates. Management believes pricing on the basis of third-party broker quotes is the most consistent with the definition of fair value described in SFAS No. 107, *Disclosures about the Fair Value of Financial Instruments*.

When the fair value of an available-for-sale security is less than amortized cost, management considers whether there is an other-than-temporary impairment in the value of the security. The decision is based on the credit quality of the issue (agency versus non-agency and for non-agency, the credit performance of the underlying collateral), the security prepayment speeds, the length of time the security has been in an unrealized loss position and the Company's ability and intent to hold securities. As of June 30, 2007, the Company did not hold any non-agency securities in its portfolio. If, in management's judgment, an other-than-temporary impairment exists, the cost basis of the security is written down in the period to fair value and the unrealized loss is recognized in current period earnings. Such an event occurred in the period ended June 30, 2007 and as a consequence the cost basis of all MBS securities have been written down to fair value and the previously unrealized loss recognized in current period earnings.

RETAINED INTEREST, TRADING

Retained interest, trading is the subordinated interests retained by the Company from the Company’s various securitizations and includes the over-collateralization and residual net interest spread remaining after payments to the Public Certificates and NIM Notes (see Note 12). Retained interest, trading represents the present value of estimated cash flows to be received from these subordinated interests in the future. The subordinated interests retained are classified as “trading securities” and are reported at fair value with unrealized gains or losses reported in earnings. In order to value these unrated and unquoted retained interests, the Company utilizes either pricing available directly from dealers or calculates their present value by projecting their future cash flows on a publicly-available analytical system. When a publicly-available analytical system is employed, the Company uses the following variable factors in estimating the fair value of these assets:

Interest Rate Forecast. LIBOR interest rate curve.

Discount Rate. The present value of all future cash flows utilizing a discount rate assumption established at the discretion of the Company to represent market conditions and value.

Prepayment Forecast. The prepayment forecast may be expressed by the Company in accordance with one of the following standard market conventions: Constant Prepayment Rate (“CPR”) or Percentage of a Prepayment Vector. Prepayment forecasts are made utilizing Citigroup Global Markets Yield Book and/or management estimates based on historical experience. Conversely, prepayment speed forecasts could have been based on other market conventions or third-party analytical systems. Prepayment forecasts may be changed as OITRS observes trends in the underlying collateral as delineated in the Statement to Certificate Holders generated by the securitization trust’s Trustee for each underlying security.

Credit Performance Forecast. A forecast of future credit performance of the underlying collateral pool will include an assumption of default frequency, loss severity and a recovery lag. In general, the Company will utilize the combination of default frequency and loss severity in conjunction with a collateral prepayment assumption to arrive at a target cumulative loss to the collateral pool over the life of the pool based on historical performance of similar collateral by the originator. The target cumulative loss forecast will be developed and noted at the pricing date of the individual security but may be updated by the Company consistent with observations of the actual collateral pool performance.

As of June 30, 2007, and December 31, 2006, key economic assumptions and the sensitivity of the current fair value of retained interests to the immediate 10% and 20% adverse change in those assumptions are as follows:

(in thousands)

	<u>June 30, 2007</u>	<u>December 31, 2006</u>
Carrying value of retained interests – fair value	\$ 73,798	\$ 104,199
Weighted average life (in years)	4.65	4.26
Prepayment assumption (annual rate)	33.78%	37.88%
Impact on fair value of 10% adverse change	\$ (4,821)	\$ (8,235)
Impact on fair value of 20% adverse change	\$ (8,873)	\$ (14,939)

Expected Credit losses (annual rate)		0.55%	0.56%
Impact on fair value of 10% adverse change	\$	(2,642)	\$ (3,052)
Impact on fair value of 20% adverse change	\$	(5,365)	\$ (6,098)
Residual Cash-Flow Discount Rate		17.35%	16.03%
Impact on fair value of 10% adverse change	\$	(3,542)	\$ (4,575)
Impact on fair value of 20% adverse change	\$	(6,767)	\$ (8,771)
Interest rates on variable and adjustable loans and bonds		Forward LIBOR Yield Curve	Forward LIBOR Yield Curve
Impact on fair value of 10% adverse change	\$	(24,550)	\$ (18,554)
Impact on fair value of 20% adverse change	\$	(43,031)	\$ (39,292)

These sensitivities are entirely hypothetical and should be used with caution. As the figures indicate, changes in fair value based upon 10% and 20% variations in assumptions generally cannot be extrapolated to greater or lesser percentage variations because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of the variation in a particular assumption on the fair value of the subordinated interest is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another that may magnify or counteract the sensitivities. To estimate the impact of a 10% and 20% adverse change of the forward LIBOR curve, a parallel shift in the forward LIBOR curve was assumed based on the forward LIBOR curve as of June 30, 2007 and December 31, 2006.

MORTGAGE SERVICING RIGHTS

The Company recognizes mortgage servicing rights (“MSRs”) as assets when separated from the underlying mortgage loans in connection with the sale of such loans. Upon sale of a loan, the Company measures the retained MSRs by allocating the total cost of originating a mortgage loan between the loan and the servicing right based on their relative fair values. Gains or losses on the sale of MSRs are recognized when title and all risks and rewards have irrevocably passed to the purchaser of such MSRs and there are no significant unresolved contingencies.

In March 2006, the FASB issued SFAS No. 156, *Accounting for Servicing of Financial Assets*. The Company elected to early adopt SFAS 156 as of January 1, 2006, and to measure all mortgage servicing assets at fair value (and as one class).

To facilitate hedging of the MSRs, management has elected to utilize an internal model for valuation purposes. Accordingly, fair value is estimated based on internally generated expected cash flows considering market prepayment estimates, historical prepayment rates, portfolio characteristics, interest rates and other economic factors.

As of June 30, 2007, and December 31, 2006, key economic assumptions and the sensitivity of the current fair value of MSR cash flows to the immediate 10% and 20% adverse change in those assumptions are as follows:

(in thousands)

		June 30, 2007		December 31, 2006
Prepayment assumption (annual rate) (PSA)		387.9		424.6
Impact on fair value of 10% adverse change	\$	(1,311)	\$	(3,923)
Impact on fair value of 20% adverse change	\$	(2,494)	\$	(7,557)
MSR Cash-Flow Discount Rate		14.50%		14.50%
Impact on fair value of 10% adverse change	\$	(1,194)	\$	(3,505)
Impact on fair value of 20% adverse change	\$	(2,296)	\$	(6,727)

These sensitivities are entirely hypothetical and should be used with caution. As the figures indicate, changes in fair value based upon 10% and 20% variations in assumptions generally cannot be extrapolated to greater or lesser percentage variations because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of the variation in a particular assumption on the fair value of the MSRs is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another which may magnify or counteract the sensitivities.

INCOME RECOGNITION

Interest income on MBS is accrued based on the actual coupon rate and the outstanding principal amount of the underlying mortgages. Premiums and discounts are amortized or accreted into interest income over the estimated lives of the MBS using the effective yield method adjusted for the effects of estimated prepayments based on SFAS No. 91, *Accounting for Nonrefundable Fees and Costs Associated with Originating or Acquiring Loans and Initial Direct Costs of Leases*; an amendment of FASB Statements No. 13, 60 and 65 and a rescission of FASB Statement No. 17. Adjustments are made using the retrospective method to the effective interest computation each reporting period based on the actual prepayment experiences to date and the present expectation of future prepayments of the underlying mortgages. To make assumptions as to future estimated rates of prepayments, the Company currently uses actual market prepayment history for the securities it owns and for similar securities that the Company does not own and current market conditions. If the estimate of prepayments is incorrect, the Company is required to make an adjustment to the amortization or accretion of premiums and discounts that would have an impact on future income.

With respect to mortgage loans held for sale, interest income and interest expense are recognized as earned or incurred. Loans are placed on a non-accrual status when concern exists as to the ultimate collectability of principal or interest. Loans return to accrual status when principal and interest become current and are anticipated to be fully collectible. The Company recognizes gain (or loss) on the sale of these loans. Gains or losses on such sales are recognized at the time legal title transfers to the purchaser of such loans based upon the difference between the sales proceeds from the purchaser and the allocated basis of the loan sold, adjusted for net deferred loan fees and certain direct costs and selling costs. The Company defers net loan origination costs and fees as a component of the loan balance on the balance sheet. Such costs are not amortized and are recognized into income as a component of the gain or loss upon sale. Accordingly, salaries, commissions, benefits and other operating expenses of \$22.2 million and \$9.9 million, respectively, during the six and three months ended June 30, 2007 were capitalized as direct loan origination costs.

Servicing fee income is generally a fee based on a percentage of the outstanding principal balances of the mortgage loans serviced by the Company (or by a sub-servicer where the Company is the master servicer) and is recorded as income as the installment payments on the mortgages are received by the Company or the sub-servicer.

INCOME TAXES

Opteum has elected to be taxed as a REIT under the Code. As further described below, Opteum's subsidiary, OITRS a taxpaying entity for income tax purposes and is taxed separately from Opteum. Opteum will generally not be subject to federal income tax on its REIT taxable income to the extent that Opteum distributes its REIT taxable income to its stockholders and satisfies the ongoing REIT requirements, including meeting certain asset, income and stock ownership tests. A REIT must generally distribute at least 90% of its REIT taxable income to its stockholders, of which 85% generally must be distributed within the taxable year, in order to avoid the imposition of an excise tax. The remaining balance may be distributed up to the end of the following taxable year, provided the REIT elects to treat such amount as a prior year distribution and meets certain other requirements.

OITRS and its activities are subject to corporate income taxes and the applicable provisions of SFAS No. 109, *Accounting for Income Taxes*. Deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax basis. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date. In assessing the realizability of deferred tax assets, management considers whether it is more likely than not that some portion or all of the deferred tax assets will not be realized. To the extent management believes deferred tax assets will not be fully realized in future periods, a provision is recorded so as to reflect the net portion, if any, of the deferred tax asset management expects to realize.

Off-Balance Sheet Arrangements

As previously discussed OITRS pools loans originated or purchased and then sells them or securitizes them to obtain long-term financing for its assets. Securitized loans are transferred to a trust where they serve as collateral for asset-backed bonds, which the trust primarily issues to the public. During the second quarter of 2007, OITRS did not execute a securitization, and is not expected to do so in the future. However, OITRS held approximately \$73.8 million of retained interests from securitizations as of June 30, 2007.

The cash flows associated with OITRS's securitization activities over the six months ended June 30, 2007, were as follows:

(in thousands)

	<u>Six Months Ended June 30, 2007</u>		<u>Six Months Ended June 30, 2006</u>	
Proceeds from securitizations	\$	-	\$	1,436,838
Servicing fees received		9,691		9,252
Servicing advances net of repayments		1,433		1,550
Cash flows received on retained interests		2,909		2,009

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

There have been no material changes to the Company's exposure to market risk since December 31, 2006. The information set forth under Item 7A – Quantitative and Qualitative Disclosures About Market Risk in the Company's Annual Report on Form 10-K for the period ended December 31, 2006, is incorporated herein by reference.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's reports under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As of the end of the period covered by this report, the Company's management carried out an evaluation, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were ineffective to accomplish their intended objectives as of June 30, 2007, for the following reasons:

On June 30, 2007, the Company's majority-owned subsidiary, Orchid Island TRS, LLC (then known as Opteum Financial Services, LLC) ("OITRS"), completed the sale of substantially all of the assets related to OITRS's retail mortgage loan origination business (the "Business"), and certain other assets associated with OITRS's corporate staff functions. In connection with the consummation of this transaction, the employment by OITRS of substantially all of OITRS's employees was terminated and a majority of these employees were hired by the purchaser of the Business. Owing to a substantial reduction in OITRS's personnel in connection with the sale of the Business, the preparation of estimates necessary for the completion of the Company's Quarterly Report on Form 10-Q for the period ended June 30, 2007, delayed the completion and timely filing of such report, which delay could not have been avoided without unreasonable effort or expense.

Changes in Internal Controls over Financial Reporting

The substantial reduction in OITRS's personnel in connection with the sale of the Business as described above has necessitated the re-allocation of responsibility for certain controls and procedures to the remaining staff of OITRS and the staff of Opteum. As a result, the extent of segregation of duties has

been reduced. Except for the foregoing, there was no change in the Company's internal control over financial reporting that occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II. OTHER INFORMATION.

ITEM 1. LEGAL PROCEEDINGS.

The Company is involved in various lawsuits and claims, both actual and potential, including some that it has asserted against others, in which monetary and other damages are sought. These lawsuits and claims relate primarily to contractual disputes arising out of the ordinary course of the Company's business. The outcome of such lawsuits and claims is inherently unpredictable. However, management believes that, in the aggregate, the outcome of all lawsuits and claims involving the Company will not have a material effect on the Company's consolidated financial position or liquidity; however, any such outcome may be material to the results of operations of any particular period in which costs, if any, are recognized. See also Notes 9 and 12 to the Company's accompanying consolidated financial statements.

ITEM 1A. RISK FACTORS.

During the period covered by this report, there were no material changes from the risk factors previously disclosed under Item 1A – Risk Factors in the Company's Annual Report on Form 10-K for the period December 31, 2006 as filed on March 14, 2007. The information set forth under Item 1A – Risk Factors in the Company's Annual Report on Form 10-K for the period ended December 31, 2006, is incorporated herein by reference.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

The Annual Meeting of Stockholders of the Company was held on April 30, 2007.

1. *Election of Directors.* At the meeting, Kevin L. Bespolka and W. Christopher Mortenson were each re-elected as Class I directors to serve until the 2010 Annual Meeting of Stockholders. For each nominee, the number of votes cast for and withheld were as follows:

NOMINEE	FOR	WITHHELD
Kevin L Bespolka	20,517,313	464,990
W. Christopher Mortenson	20,518,020	464,283

The following directors continued in office after the meeting:

Jeffrey J. Zimmer, Robert E. Cauley, Peter R. Norden, Maureen A. Hendricks and Buford H. Ortale.

On June 12, 2007, Robert J. Dwyer was appointed as a member of the Board of Directors and as Chair of the Audit Committee of the Board of Directors following the resignation from the Board of Directors of Maureen A. Hendricks. On June 29, 2007, in conjunction with the sale by the Company of its Retail mortgage origination business, Peter R. Norden resigned his positions with the Company and as a member of the Board of Directors.

2. *Ratification of Appointment of Independent Registered Public Accounting Firm.* At the meeting, the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the year ending December 31, 2007 was ratified by the Company's stockholders. The number of votes cast for and against the ratification of Ernst & Young LLP and the number of abstentions and broker non-votes were as follows:

FOR	AGAINST	ABSTAIN	BROKER NON-VOTES
20,642,123	276,668	63,511	0

SEVENTH AMENDED AND RESTATED LIMITED LIABILITY COMPANY AGREEMENT OF ORCHID ISLAND TRS, LLC

This SEVENTH AMENDED AND RESTATED LIMITED LIABILITY COMPANY AGREEMENT (the "Agreement") of Orchid Island TRS, LLC (f/k/a Opteum Financial Services, LLC) (the "Company"), dated as of July 20, 2007 (this "Agreement"), is made and entered into by OPTUEM INC., a Maryland corporation (the "Opteum"), and CITIGROUP GLOBAL MARKETS REALTY CORP., a New York corporation ("Citigroup" and, together with Opteum, the "Members").

RECITALS

WHEREAS, the Company was formed on February 26, 1999 as a limited liability company pursuant to the Delaware Limited Liability Company Act, 6 Del. C. § 18-101, et seq., as amended from time to time (the "Act"), by filing a Certificate of Formation of the Company with the office of the Secretary of State of the State of Delaware; and

WHEREAS, on December 21, 2006, immediately following Opteum's conversion and reclassification of a number of limited liability company interests in the Company from Class A Membership Interests to Class B Membership Interests, Citigroup acquired the percentage and class of limited liability company interests in the Company (the "Membership Interests") set forth opposite Citigroup's name on Exhibit A hereto from Opteum pursuant to and in accordance with the terms of that certain Membership Interest Purchase, Option and Investor Rights Agreement, dated as of December 21, 2006 (the "Purchase Agreement"), by and among the Company, Opteum and Citigroup; and

WHEREAS, on July 3, 2007, the Company filed a Certificate of Amendment to its Certificate of Formation with the Secretary of State of the State of Delaware thereby changing its name from Opteum Financial Services, LLC to Orchid Island TRS, LLC; and

WHEREAS, the Members desire to amend and restate the Company's Sixth Amended and Restated Limited Liability Company Agreement, dated as of December 21, 2006, to take account of the aforementioned name change of the Company.

NOW, THEREFORE, the Members hereby declare as follows:

Section 1. Name. The name of the Company is "Orchid Island TRS, LLC." The Board of Managers is authorized to change the name of the Company and may otherwise conduct the business and affairs of the Company under any other name, if it deems it necessary or advisable to do so, provided that it complies with all applicable laws in doing so and so long as such name includes the words "Limited Liability Company" or the abbreviation "LLC". The Company shall notify the Members in writing of any such change or use of other name. In the event that the name of the Company is changed pursuant to this Section, references herein to the name of the Company shall be deemed to have been amended to the name as so changed.

Section 2. Purpose. The Company may engage in any lawful business, purpose or activity permitted under the Act and approved by the Board of Managers, and exercise all the powers and privileges granted by the Act or by any other law or this Agreement, together with any powers incidental thereto, including such powers and privileges as are necessary or convenient to the conduct, promotion or attainment of the business purposes or activities of the Company; provided, however, that the Company shall not directly or indirectly operate or manage a "lodging facility" or a "health care facility" or directly or indirectly provide to any other person (under a franchise, license, or otherwise) any rights to any brand name under which any lodging facility or health care facility is operated, in each case, as set forth in Section 856(1)(3) and (4) of the Internal Revenue Code of 1986, as amended (the "Code").

Section 3. Term; Continued Existence. The Company shall continue in perpetuity unless sooner dissolved in accordance with Section 19. The Members shall take all actions necessary to ensure the Company's existence as a limited liability company in good standing under the laws of the State of Delaware and under the laws of any other state in which the Company conducts the business and activities authorized in this Agreement.

Section 4. Principal Office; Books and Records. The principal office of the Company shall be located at 115 West Century Road, Paramus, New Jersey 07652 or such other place or places as the Board of Managers may determine. The Board of Managers shall be responsible for maintaining at the Company's principal office those books and records required by the Act to be so maintained.

Section 5. Registered Office and Agent. The address of the registered office of the Company in the State of Delaware is c/o Corporation Service Company, 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808. The name of the registered agent of the Company is Corporation Service Company. The address of the registered agent in the State of Delaware is 2711 Centerville Road, Suite 400, Wilmington, Delaware 19808. The registered agent and the registered office of the Company may be changed from time to time by the Board of Managers.

Section 6. Members. The names, mailing addresses, class of Membership Interest and percentage interests (the "Percentage Interest") of the Members are set forth on Exhibit A hereto. No other person or entity shall be admitted as a member of the Company, and no additional interests in the Company shall be issued, without the approval of Opteum and appropriate amendments to this Agreement, including Exhibit A.

Section 7. Classes of Membership Interests; Reclassification Upon Purchase.

(a) The Membership Interests shall be issued in two classes: the "Class A Membership Interests" and the "Class B Membership Interests". The Class A Membership Interests and the Class B Membership Interests shall be identical in all respects, except that the Class A Membership Interests shall have voting rights and the Class B Membership Interests shall not have voting rights. All or any portion of the Class A Membership Interests may be converted and reclassified by the holder thereof, at any time, into an equal number of Class B Membership Interests.

(b) Pursuant to the terms of the Purchase Agreement, Citigroup acquired Class B Membership Interests from Opteum, such Class B Membership Interests having been reclassified as Class B Membership Interests from Class A Membership Interests by Opteum immediately prior to their acquisition by Citigroup. At the Option Closing (as defined in the Purchase Agreement) and pursuant to the terms of the Purchase Agreement, Citigroup may acquire from Opteum additional Membership Interests constituting an additional 7.49% of the Membership Interests then outstanding and such Membership Interests shall, immediately prior to such sale by Opteum, be reclassified from Class A Membership Interests to Class B Membership Interests. Following such acquisition, if any, or any other change in ownership or class or any increase or decrease in ownership percentage, Exhibit A hereto shall be amended to reflect the new ownership, percentage and class of outstanding Membership Interests held by the Members as of such date.

Section 8. Liability of the Member. Except as otherwise expressly provided in the Act, the debts, obligations and liabilities of the Company, whether arising in contract, tort or otherwise, shall be solely the debts, obligations and liabilities of the Company, and no Member shall be obligated personally for any such debt, obligation or liability of the Company solely by reason of being a member.

Section 9. Management of the Company.

(a) The Company shall have a Board of Managers (the “Board of Managers”), which shall be the “manager” of the Company (within the meaning of the Act) and the size and composition of which shall be as set forth in this Section 9.

(b) Subject to the delegation of powers provided for herein and the limitations set forth herein, the right and power to manage and control the business and affairs of the Company shall be vested exclusively in the Board of Managers, and the Board of Managers shall have the exclusive right and power, in the name of and on behalf of the Company, to perform all acts and do all things which, in its sole discretion, it deems necessary or desirable to conduct the business of the Company. Except as otherwise required by law, no Member shall have any right or power, by reason of the Member’s status as such, to act for or bind the Company, but shall have only the right to vote on, approve or take the actions herein specified to be voted on, approved or taken by it.

(c) The Board of Managers shall consist of one or more individuals (each, a “Manager”), with the exact number of Managers to be determined from time to time by Opteum in its sole discretion. Initially, the Board of Managers shall consist of the following three Managers: Jeff Zimmer, Robert Cauley and Peter Norden. Each Manager shall be appointed by Opteum in its sole discretion and may be removed by Opteum at any time in its sole discretion. Each Manager shall hold office until such Manager’s death or resignation or removal by Opteum. Any Manager may resign at any time by giving written notice to the Members. Such resignation shall take effect at the time specified therein or, if the time be not specified, upon receipt thereof; and unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. Vacancies on the Board of Managers resulting from death, resignation, removal or otherwise and newly created Managerships resulting from any increase in the number of Managers shall be filled solely by action taken by Opteum.

(d) A majority of the total number of Managers then in office, whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at a meeting of the Board of Managers, and the affirmative vote of a majority in voting power of the Managers present at any such meeting, whether present in person or represented by proxy, at which a quorum is present shall be necessary for the passage of any resolution or act of the Board of Managers. At each meeting of the Board of Managers at which a quorum is present, each other Manager present at such meeting, whether present in person or represented by proxy, shall be entitled to one vote on each matter to be voted on at such meeting. Any action required or permitted to be taken at any meeting of the Board of Managers may be taken by the unanimous written consent of the Managers then in office.

Section 10. Committees of the Board of Managers. The Board of Managers may designate, by resolution, one or more committees. Any such committee, to the extent provided in the resolution of the Board of Managers, shall have and may exercise all the powers and authority of the Board of Managers in the management of the business and affairs of the Company, and may authorize the seal of the Company to be affixed to all papers which may require it. Each committee shall consist of one or more of the Managers. Each member of a committee shall be appointed by the Board of Managers in its sole discretion (but subject to the foregoing sentence) and may be removed by the Board of Managers at any time in their sole discretion. Each member of a committee shall hold office until the member’s death or resignation or removal by the Board of Managers. Any member of a committee may resign at any time from such committee by giving written notice to the Board of Managers. Such resignation shall take effect at the time specified therein or, if the time be not specified, upon receipt thereof; and unless otherwise specified therein, the acceptance of such resignation shall not be necessary to make it effective. Vacancies on a committee resulting from death, resignation, removal or otherwise and newly created positions on a committee resulting from any increase in the number of members of a committee shall be filled solely by the Board of Managers. The Board of Managers may designate one or more Managers as alternate members of any committee, who may replace any absent member at any meeting of the committee. All of the members of a committee then in office (or, in the absence of the member, the alternate member who has replaced the member), whether present in person or represented by proxy, shall constitute a quorum for the transaction of business at a meeting of such committee, and the affirmative vote of the member (or the alternate members who have replaced them) shall be necessary for the passage of any resolution or act of such committee. Any action required or permitted to be taken at any meeting of a committee may be taken by the written consent of all of the members of such committee then in office. Each committee shall report its actions to the Board of Managers when so required by the Board of Managers.

Section 11. Officers. The Board of Managers or the officer to which it delegates such responsibility may, from time to time, designate or appoint one or more officers of the Company, including, without limitation, president, one or more vice presidents, a secretary, an assistant secretary and/or a treasurer. Such officers must be employees of the Company or an affiliate of the Company. Each appointed officer shall hold office until: (i) his/her successor is appointed by the Board of Managers or its applicable delegate; (ii) such officer submits his/her resignation; or (iii) such officer is removed, with or without cause, by the Board of Managers or its delegate. All officers shall have such authority and perform such duties as the Board of Managers or its delegates may determine, subject to the terms and provisions of this Agreement.

Section 12. Duties and Liabilities of the Members and Officers.

(a) Neither any Member nor any Manager or officer shall be liable to the Company for any loss or damages resulting from errors in judgment or for any acts or omissions that do not constitute willful misconduct or gross negligence on the part of the Member, Manager or officer. In all transactions for or with the Company, the Members, the Managers and the officers shall act in good faith and in the best interest of the Company.

(b) The Company, its receiver or its trustee (but not any Member personally, if any Member shall act as the receiver or trustee) shall indemnify and defend the Members, the Managers and the officers against, and hold them harmless from, any and all losses, judgments, costs, damages, liabilities, fines, claims and expenses (including, but not limited to, reasonable attorney’s fees and court costs, which shall be paid by the Company as incurred) that may be made or imposed upon such persons and any amounts paid in settlement of any claims sustained by the Company by reason of any act or inaction which is determined to have been taken in good faith in the best interests of the Company and so long as such conduct shall not constitute willful misconduct or gross negligence.

(c) In the event of settlement of any action, suit or proceeding brought or threatened, such indemnification shall apply to all matters covered by the settlement except for matters as to which it is determined that the person seeking indemnification did not act in good faith in the best interests of the Company or such matter resulted from willful misconduct or gross negligence. The foregoing right of indemnification shall be in addition to any rights to

which the Members, the Managers and officers may otherwise be entitled and shall inure to the benefit of the executors, administrators, personal representatives, successors or assigns of each such person.

(d) The Company shall pay the expenses incurred by the Members, the Managers or any officer in defending a civil or criminal action, suit or proceeding, upon receipt of an undertaking by such person to repay such payment if such person shall be determined not to be entitled to indemnification therefor as provided herein. Any right of indemnity granted under this Section 12 may be satisfied only out of the assets of the Company and no Member nor any Manager or officer shall be personally liable with respect to any such claim for indemnification.

(e) The Company shall have the power to purchase and maintain insurance in reasonable amounts on behalf of the Company and the Members, Managers, officers, employees and agents of the Company against any liability incurred by them in their capacities as such.

(f) The provisions of this Section 12 shall not be construed to limit the power of the Company to indemnify its Members, Managers, officers, employees or agents to the fullest extent permitted by law or to purchase insurance or enter into specific agreements, commitments or arrangements for indemnification. The absence of any express provision for indemnification in this Agreement shall not limit any right of indemnification existing independently of this Section 12.

Section 13. Capital Contributions. The Members shall have no obligation to contribute any capital, or to make any loans, to the Company. With the prior approval of the Board of Managers, the Members may, however, from time to time make voluntary capital contributions to the Company.

Section 14. Distributions; Allocation of Profits and Losses. Distributions shall be made by the Company to the Members at the times and in the amounts as may from time to time be determined by the Board of Managers. Distributions shall be made to each Member based on the Percentage Interest held by such Member on the date of such distribution.

Section 15. Tax Matters. At all times, the Company shall be treated as a corporation for U.S. federal income tax purposes and shall take all necessary and appropriate actions to confirm and ensure such treatment including, but not limited to, filing all required U.S. federal income tax returns and elections necessary or appropriate to secure and preserve such treatment. In addition, at all times, the Company shall be treated as a "taxable REIT subsidiary" (within the meaning of Section 856(l) of the Code) and shall take all necessary and appropriate actions to confirm and ensure such treatment including, but not limited to, filing all required U.S. federal income tax returns and elections necessary or appropriate to secure and preserve such treatment. The Company shall not take any action, directly or indirectly, that would adversely affect the Company's ability to qualify as a taxable REIT subsidiary.

Section 16. Transfers. Except as specifically provided in the Purchase Agreement, Citigroup shall not, directly or indirectly, whether voluntarily, involuntarily, by operation of law or otherwise, transfer, dispose of, sell, lend, pledge, hypothecate, encumber, assign, exchange, participate, subparticipate, or otherwise transfer in any manner (each, a "Transfer") all or any portion of its Membership Interests, or any rights arising under, out of or in respect of this Agreement, including, without limitation, any right to damages for breach of this Agreement unless prior to such Transfer the transferee and such Transfer is approved by the Board of Managers, which approval may be withheld in its sole and absolute discretion.

Section 17. Dissolution. Subject to the terms of this Agreement, the Company shall be dissolved, and shall terminate and wind up its affairs upon the first to occur of (i) the election of Opteum or (ii) the entry of a decree of judicial dissolution under Section 18-802 of the Act.

Section 18. Liquidation. Upon dissolution, the Company's business shall be liquidated in an orderly manner. Opteum shall act as the liquidator (unless it elects to appoint a liquidator) to wind up the affairs of the Company pursuant to this Agreement. If there shall be no members, the successor-in-interest to Opteum may serve as such liquidator or may approve one or more liquidators to act as the liquidator in carrying out such liquidation. In performing its duties, the liquidator is authorized to sell, distribute, exchange or otherwise dispose of the assets of the Company in accordance with the Act and in any reasonable manner that the liquidator shall determine to be in the best interest of the Members or their successors-in-interest. The proceeds of any liquidation shall be applied and distributed in the following order of priority:

(a) for the payment of the debts and liabilities of the Company (including any debts and liabilities owed to the Members to the extent permitted under the Act (and the expenses of liquidation));

(b) to the setting up of any reserves that Opteum reasonably may deem necessary for any contingent or unforeseen liabilities or obligations of the Company arising in connection with the business of the Company. These reserves may be paid over by Opteum to any attorney-at-law, as escrowee, to be held by such attorney for the purpose of disbursing such reserves in payment of any of the aforementioned contingencies and, at the expiration of such period as Opteum shall deem advisable, to distribute the balance of such reserves to the Members based on their Percentage Interests; and

(c) thereafter, to the Members based on their Percentage Interests.

Section 19. Right to Partition. To the extent permitted by law, and except as otherwise expressly provided in this Agreement, each Member, on behalf of itself and its successors and assigns hereby specifically renounces, waives and forfeits all rights, whether arising under contract or statute or by operation of law, to seek, bring or maintain any action in any court of law or equity for partition of the Company or any asset of the Company, or any interest which is considered to be Company property, regardless of the manner in which title to any such property may be held.

Section 20. Severability. It is the desire and intent of the Members that the provisions of this Agreement be enforced to the fullest extent permissible under the laws and public policies applied in each jurisdiction in which enforcement is sought. Accordingly, if any particular provision of this Agreement shall be adjudicated by a court of competent jurisdiction to be invalid, prohibited or unenforceable for any reason, such provision, as to such jurisdiction, shall be ineffective, without invalidating the remaining provisions of this Agreement or affecting the validity or enforceability of such provision in any other jurisdiction. Notwithstanding the foregoing, if such provision could be more narrowly drawn so as not to be invalid, prohibited or unenforceable in such jurisdiction, it shall, as to such jurisdiction, be so narrowly drawn, without invalidating the remaining provisions of this Agreement or affecting the validity or enforceability of such provision in any other jurisdiction.

Section 21. Integration. Except as expressly provided herein, this Agreement and the Purchase Agreement constitutes the entire agreement among the parties pertaining to the subject matter of this Agreement and supersedes all prior and contemporaneous agreements and understandings of the parties in connection with this Agreement. Except as expressly provided herein, no prior, contemporaneous, or future covenant, representation, or condition not expressed in this Agreement or in an amendment to this Agreement in accordance with Section 22 shall affect or be effective to interpret, change or restrict the express provisions of this Agreement.

Section 22. Modification, Waiver or Termination. No modification, waiver or termination of this Agreement, or any part of this Agreement, shall be effective unless made in writing.

Section 23. Benefits of Agreement. No person or entity other than the Members and the Company is, nor is it intended that any such other person or entity be treated as, a direct, indirect, intended or incidental third-party beneficiary of this Agreement for any purpose whatsoever, nor shall any such other person or entity have any legal or equitable right, remedy or claim under or in respect of this Agreement. Without limiting the generality of the foregoing, nothing in this Agreement, expressed or implied, is intended or shall be construed to give to any creditor of the Company or to any creditor of any Member or any other person or entity whatsoever, other than the Members and the Company, any legal or equitable right, remedy or claim under or in respect of this Agreement or any covenant, condition or provisions contained in this Agreement, and such provisions are and shall be held to be for the sole and exclusive benefit of the Members and the Company.

Section 24. Interpretation. As used in this Agreement, the masculine, feminine or neuter gender, and the singular or plural number, shall be deemed to be or include the other genders or number, as the case may be, whenever the context so indicates or requires. Sections and other titles contained in this Agreement are for convenience of reference only and shall not define or limit any of the provisions of this Agreement.

Section 25. Binding Effect. This Agreement shall be binding upon and inure to the benefit of the Members and their respective successors and permitted assigns.

Section 26. Actions by Opteum. Any action required or permitted to be taken under this Agreement by Opteum shall require written evidence of such action executed by at least two duly appointed and authorized officers of Opteum.

Section 27. Governing Law. **THIS AGREEMENT SHALL BE GOVERNED BY, AND CONSTRUED IN ACCORDANCE WITH, THE LAWS OF THE STATE OF DELAWARE, WITHOUT GIVING EFFECT TO CONFLICTS OF LAW PRINCIPLES OF SUCH STATE.**

Section 28. Application of the Act. Any matter not specifically covered by a provision of this Agreement shall be governed by the applicable provisions of the Act.

Section 29. Effective Date. This Agreement shall be effective immediately following Citigroup's acquisition of Membership Interests pursuant to the Purchase Agreement.

EXCHANGE ACT OF 1934, AS ADOPTED PURSUANT TO SECTION 302 OF THE
SARBANES-OXLEY ACT OF 2002**

I, Jeffrey J. Zimmer, Chairman of the Board, President and Chief Executive Officer, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q for the period ended June 30, 2007, of Opteum Inc. (the "registrant");
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing equivalent functions):
 - a) all significant deficiencies and material weakness in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

SECTION 906 OF THE SARBANES-OXLEY ACT OF 2002**

In connection with the Quarterly Report on Form 10-Q of Opteum Inc. (the "Company") for the fiscal quarter ended June 30, 2007, as filed with the Securities and Exchange Commission on the date hereof (the "Report"), I, Robert E. Cauley, Vice Chairman of the Board, Senior Executive Vice President, Chief Financial Officer, Chief Investment Officer and Treasurer of the Company, hereby certify, pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002, that:

1. The Report fully complies with the requirements of Section 13(a) or 15(d), as applicable, of the Securities Exchange Act of 1934; and
2. The information contained in the Report fairly presents, in all material respects, the financial condition and results of operations of the Company as of, and for, the periods presented in the Report.
